FIGHT OVER WATER RATES GROWS WARM

President Edgerton of Public Service Corporation Assails City Attorney Gray; Challenges Truth of Statements

Southern Pacific Enters Controversy As Protest Against Prices Charged; Hearing Is Transferred

The hearing on the application of the East Bay Water company for an increase in rates was resumed before the State Railroad Commission in San Francisco today, with City Attorney Leon Gray of Oakland endeavoring to show that the corporation had gone to needless expense in certain directions and thereby incurred obligations which they were now seeking to equalize by obtaining more revenue.

George H. Wilhelm, vice-president and general manager of the East Bay Water company, was cross-examined at length by Gray. He had given his direct testimony yesterday. He was asked if it was not true that changes in the plan of the San Pablo reservoir had resulted in increased expense. He claimed that there had been various changes made, but that there were no material expenses attached.

INTERVIEW WITH SAN PABLO PURIFICATION PLANT

Interrogated regarding the San Lorenzo Purification plant, he was asked if it was not true that its cost had been far less than that of the new purification plant at San Pablo. He admitted that this was the fact, but declared that the new plant gave greater protection to the people than the one at San Lorenzo, which he said was not modern nor efficient.

He added that no matter what the cost, sufficient money should be spent to bring the San Lorenzo plant up to the same standard of efficiency as that at San Pablo. After a consultation with President Edwin O. Edgerton, it was agreed that an inventory of all the properties of the company working with the commission. The officials of the company are already at work preparing this inventory.

TWO NEW ANGLES TO THE CASE

Two outstanding features marked yesterday afternoon's session in the East Bay Water Company's rate hearing, each of them having a possible effect on the ultimate decision of the case. The first was the introduction of the Southern Pacific Company into the lists as a protest against present water rates. The second was a statement by President Edgerton of the company, charging that City Attorney Leon E. Gray of Oakland was "misleading the facts," "misrepresenting the situation," and "misquoting the facts."

HEARING GROWS PERSONAL AND BITTER

It is admitted that the hearing, which started as a technical affair, is getting slightly personal and bitter. The entrance of the Southern Pacific into the lists is a result of the merging of the old Union Water Company into the East Bay Water Company. The Southern Pacific had a contract by which the Union supplied water to the railroad. The railroad asserts that this contract should be binding on the East Bay Water company, as an heir to the union. The East Bay does not see it that way. The Southern Pacific alleges that in consequence it is paying twice what it used to pay for water, and wants the rate lowered.

The Western Pacific railroad is also preparing the same complaint. It is said to be in exactly the same situation as the Southern Pacific. Edgerton's reply to Leon Gray was given just before the hearing yesterday in a press statement. Edgerton said:

"As quoted in the daily papers, Mr. Leon Gray, city attorney of Oakland, said that the consumers of the East Bay Water Company have contributed money, through rates, to build a substantial part of the plant of that company, and that the company has asked that a profit on this money contributed by consumers. This is an unqualified falsehood.

TRICK OF DEMAGOGUE, SAYS EDGERTON

It has never been, and in my judgment it never will be, possible that the Railroad Commission will permit any public utility company to exact from consumers money sufficient to build systems.

If Mr. Leon Gray made this statement, he is resorting to the trick of the demagogue to arouse the people to hostility both against the Railroad Commission, and the East Bay Water Company, and is knowingly misstating the facts.

Travelers Menaced By Gun-toter, Who Vanishes As Train Arrives Here.

Western Pacific railroad detectives and employees went to re-establish contact with a mysterious and belated passenger who boarded the company's overnight train at an isolated station in the high Sierras last night and dominated the passengers and crew through the sheer force of his personality, a badge and a gun until the train arrived at Hayward this morning.

The man boarded the train at O'Nira late last night. He was accorded the courtesies that are due a person who has made a drawing-room reservation.

At a station above Sacramento a stranger abruptly appeared at the door of his compartment armed with a large-caliber revolver and displaying a badge. He was bellicose and complained that he was late, and that he was late because of the delay of the train. He shouted down passengers who attempted to explain they merely had walked by the door of his drawing room. After several flourishes of his weapon the stranger, again retired after announcing he was an officer. He said he did not want to be disturbed.

Death in Lodgeroom Attributed To Booze

RIO VISTA, Jan. 12.—The death of John F. Ventrice, 20 years old, of Collinsville, who died here last night, may have been the result of poisoning from jackass brandy, according to statements given out today by the doctors who conducted the autopsy. The contents of his stomach are being examined for evidence of poison.

Ventricer came here last night to be initiated into Rio Vista Aerie No. 2055, of the Eagles. During the initiation ceremonies he toppled to the floor from the chair in which he was sitting. Dr. L. A. Anthony, one of the members, rendered first aid and the youth was taken to the hospital.

STATE LAW BANS CHILD MARRIAGES

Weddings of Boys Under 18 And Girls Under 16 Years Are Forbidden By Statute Passed By Last Legislature

Measure Enacted and Then Lost Sight of May Be Cause of Voiding of Many Unions Since Its Official Adoption

Neither a boy under 18 years of age nor a girl under 16 years of age may marry in California, even with the consent of the parents, according to an opinion which has been rendered by the State Legislative Council Bureau at Sacramento. The opinion was handed down by the bureau yesterday following the discovery that the act was passed by the last legislature, signed by Governor William D. Stephens and lost sight of in the last-minute rush of legislative business.

The act, according to its interpreters, bans any more so-called "child marriages" in this state. It was introduced in the legislature by Assemblyman A. A. Rosenbush, and was unopposed by L. E. Ross, director of the bureau of vital statistics at Sacramento. Under regular procedure the act became law last August, and the belief is held in many circles that it probably will void a number of marriages entered into since that time by contracting parties under the age limit.

NO MINIMUM SET IN OLD STATUTE

Under the old statute there was no minimum age provision for persons desiring to marry if they had the consent of their parents.

The section of the law which is interpreted to prohibit the marriage of boys or girls under the age of 18 years is:

"Provided, that any male under the age of 21 years and over the age of 18 years, and any female under the age of 17 years and over the age of 16 years, with the consent in writing of the parents of the person under age, is capable of consenting to and consummating marriage."

COPIES OF NEW ACT SENT COUNTY CLERKS

The act amends section 30 of the Civil Code, which failed to fix a minimum age for parties contracting marriage.

B. Wood, of the legislative bureau, in commenting on the act, says:

"There can be no doubt that the clauses 'over the age of 18 years' in the case of the male, and 'over 16 years' in the case of the female prohibit marriages in which either party is under the age of 18 years and 16 years, respectively. Copies of the act, it is announced, are being sent county clerks throughout the state.

"Since the 29th of last July we have refused to issue marriage licenses to boys under 18 and girls under 16, even though they had the consent of their parents," said Marriage License Clerk Stuart Connell today.

"The law which went into effect on that day was immediately forwarded to this office, and so far as we are concerned there have been no licenses issued where either party was under the prescribed age. Before that law was passed, it was possible for a girl of 15 to marry provided she had the consent of her parents."

Briand, Coaxed By Critics, Resigns; Poincare is Asked to Form Ministry; Action Won't Affect Arms Conclave

WASHINGTON, Jan. 12.—The resignation of Premier Briand and the French cabinet will not have a material effect on the Washington conference, it was stated this afternoon by the heads of the respective delegations.

Accept Policies or Leave Them, Deputies Are Told

PARIS, Jan. 12.—(By the Associated Press.)—Premier Briand this afternoon put the Anglo-French pact to the question of post-ponement of German reparations payments and the French nation's action in the Geneva conference.

He told the deputies that the Chamber of Deputies would be asked to accept the policies of the French cabinet, or to leave them to the hands of the British government.

The premier declared that the French cabinet would stand by France with her full strength.

According to new reparations agreements, he said, France would have to face one burden. In case of German aggression on the Rhine, Briand declared, Great Britain would stand by France with her full strength.

By WILLIAM COOK, International News Service Staff Correspondent.

PARIS, Jan. 12.—Premier Briand's resignation came with spectacular suddenness and up to the climax of the battle, his friends in the chamber were claiming he would secure a vote of confidence. The premier told the deputies that the proposed economic conference at Geneva was necessary to enable all nations in the world to reconstruct their commercial affairs and bring about a lasting "economic peace."

"The financial and commercial position of the powers must be restored," he said. "There are certain inconveniences to be sure, but guarantees will be insisted upon. There is another point. It will be definitely established that the question of Germany's indemnity shall not be brought up at Geneva."

Briand was interrupted by deputies who demanded to know why Soviet Russia was to be admitted to the conference and if France would insist upon recognition of the old Russian debts by the Moscow soviet.

Violent protests were hurled at the premier as he made his statement, especially as he declared that a majority of the members of the inter-allied reparations commission were in favor of granting Germany an indemnity moratorium.

Briand pointed out that the commission enjoyed the right to allow delays in the payment of indemnity. Briand told the chamber that France would not lose a penny of German indemnity in 1922.

"England and Belgium have already consented to forfeit part of their share of reparations," said M. Briand.

PARIS CHIEF QUILTS UNDER WILD ATTACK

Astounds His Ministers and Deputies By Walking Out of Chamber After Fiery Clash Regarding Policies

Vote of Approval Considered Probable; Cabinet a Unit Behind Leader; Poincare, Tardieu Back Onslaught

PARIS, Jan. 12.—Senator Raymond Poincare, former president of the French republic and leader of the irreconcilable nationalists in French politics, was asked by President Millerand tonight to form a new ministry.

By INTERNATIONAL NEWS SERVICE LEASED WIRE TO TRIBUNE.

CANNES, France, Jan. 12.—Premier Poincare announced this afternoon that they will make no decision at the supreme council conference until the French ministerial crisis is settled and a new premier appointed.

By ASSOCIATED PRESS LEASED WIRE TO TRIBUNE.

PARIS, Jan. 12.—Premier Briand submitted his resignation to President Millerand at the Elysee Palace today after making a lengthy statement justifying his attitude at the Cannes conference.

Briand's intention to resign was announced to the chamber at the close of his hour's speech. The announcement came as an entire surprise, as he had announced only his sympathy of the chamber. His leagues of the cabinet were filled with amazement at his sudden determination.

Briand, after making his announcement, left the chamber alone. The members of the cabinet followed as soon as they had recovered from their surprise.

Groups of deputies and government officials speedily gathered in the corridors for a discussion of the seriousness of the situation, seeking a way out of the difficulty.

By WILLIAM COOK, International News Service Staff Correspondent.

PARIS, Jan. 12.—Premier Briand today resigned as a result of criticism over his policy in the supreme council meeting at Cannes.

The premier announced his resignation in the chamber of deputies during a violent uproar. The cabinet's resignation went with that of the premier.

Following the continual interruptions and shouted protests, the premier lost his temper.

"I see that there is no longer any confidence in me in this parliament and therefore I resign," he declared.

Accompanied by a group of ministers, Briand left the chamber and proceeded to the Elysee Palace to consult with President Millerand.

Upon leaving Elysee Palace, Briand issued a brief statement, saying:

"My resignation was definite. I refused to undertake the formation of a new cabinet."

The French ministerial crisis European politics has known since the war has been precipitated by the resignation of Briand.

The premier's resignation leaves no doubt that the French government without a directing hand, but also the French delegation attending the supreme council meeting in Cannes.

M. Loucheur was left temporarily in charge of the French negotiations at Cannes, but it was understood no decisions would be taken on the question.

French Leader Astounds the
Ministry, Deputies By
Sudden Resignation.

(Continued from page 1)

News of the premier's action was a bombshell to the public, for it had been preceded by the announcement that the cabinet had approved the premier's policy at Cannes and had decided to support him throughout. There was a dramatic scene in parliament this afternoon when the veteran statesman, confronted by his critics, the spectators' galleries jammed in anticipation of fiery debate.

Raoul Peret, president of the chamber of deputies, opened the fray in the chamber. Premier Briand ascended the tribune immediately after Peret had finished and quickly threw down the gauntlet to his political hecklers among the deputies. "I wonder if I would not be better off elsewhere," began the premier. "The cabinet has just approved the agreement and the details of the negotiations but later on will give you an opportunity to decide the fate of the agreement reached in the council which involve France."

The Poincare-Tardieu faction which has supported M. Peret predicted that President Millerand would ask Peret to form a new ministry.

Briand was chosen premier for the seventh time on January 15, 1921. His selection came as the result of a parliamentary coup identical with that of today.

The premier was chosen on his announcement of a policy to compel Germany to pay the cost of indemnity and fulfill every clause of the Versailles treaty to the letter. Since the premier's recent trip to London his opponents in the chamber have accused him of "going to Cannes with his hands tied by previous agreements and of sacrificing some of France's interests in the matter of reparations."

Bankruptcy Plea Voiced By Germans at Cannes

BY UNITED PRESS
PARIS, Jan. 12.—(By the Associated Press.) "Germany will go bankrupt if she is required to pay 250,000,000 marks to the allies this year," Herr Rathenau, head of the German delegation, told the supreme council in a lengthy speech here today.

Rathenau, who was called upon by the conference to state Germany's position and ability to pay the reparations required, insisted the allied demands for 1922 were much too high and could lead only to bankruptcy.

The German position will be further outlined by Rathenau in a continuation of his statement later in the day.

By FRANK E. MASON,
International News Service Staff Correspondent.

CANNES, France, Jan. 12.—Germany's indemnity guarantees demanded by the allies to insure reparations payments were laid before the supreme council today. They were outlined by Walter Rathenau, former German minister for reconstruction and leader of the German delegation of experts. The chief guarantees follow:

Germany pledges herself to reduce paper money but not to suppress its issuance entirely.

Germany will "facilitate" the proposed international consortium to assist the Germans in meeting their indemnity obligations.

Germany will increase the postal, telegraph and railroad rates in order to reduce the deficit now existing in the treasuries of those public services.

Germany will diminish the food subsidies.

The price of German coal will be increased.

The Berlin government will attempt to balance the German budget.

Dr. Rathenau held separate conferences with Premier Lloyd George of England and M. Jaspard, the Belgian foreign minister and head of the Belgian delegation.

Dr. Rathenau appeared before the council and made a long report on financial and industrial conditions in Germany. He was still talking when recess was taken for luncheon.

The German expert said that imports were now exceeding German exports by one hundred million pounds.

NAVY AGREEMENT DELAYED BY MANY MINOR SQUABBLES

Delegates Look For Conclude
To Continue Until End
Of January.

By GEORGE R. HOLMES,
International News Service Staff Correspondent.

WASHINGTON, Jan. 12.—Fresh complications almost daily are blocking rapid progress in the armament conference to a point where many of the delegates will consider themselves lucky if they can wind up by the end of January.

Behind the stereotyped official announcements that "progress is being made" lies a chain of small disagreements on matters comparatively unimportant to the main objective. This is particularly true of the naval treaty. None of the difficulties is of sufficient importance to endanger the life of the conference, but taken in the aggregate they constitute a series of delaying factors.

The naval treaty came from the drafting experts of all nations, fully agreed to and with speedy ratification in prospect. Japan almost immediately found fault with the provisions for the maintenance of the status quo in the Pacific.

Baron Kato insisted that the Bonin islands and the Chishima group be included as part of the Japanese homeland and thus exempt from the status quo arrangement. The matter had to be referred to Tokyo, where it still remains.

Then Japan and Great Britain found fault with the provisions for scrapping the surplus naval tonnage. Their spokesmen do not want to scrap the tonnage, but want it converted to harbor defenses, etc. The American delegates were reluctant to consent to this, maintaining the scrapping really meant scrapping France and Italy, not having any surplus ships to get rid of, agreed with the United States.

Now Great Britain has suggested that a number of decisions be embodied in auxiliary treaties, notably the decisions respecting the submarine rules. The American delegates are, in the main, opposed to this, believing the naval decisions should be incorporated in a single document.

Pole-Lithuanian Dispute Up Again GENEVA, Jan. 12.—(By the Associated Press.)—The dispute between Poland and Lithuania, which came before the council of the League of Nations today, the situation in Albania and Danzig also were on the program, but the Vinea problem held chief place. It is one of the most difficult questions facing the council.

The League of Nations already had evinced a solution, but this was rejected by both countries and the council is considering the question in the light of the election held in Vilna last Sunday.

FORGERY CHARGE DROPPED. The case against John Louca, who was charged with forgery, was dismissed today by Police Judge Richmond on motion of the prosecuting attorney. TEACHERS TO DISCUSS LIQUOR IN SCHOOLS WOODLAND, Jan. 12.—Principal William Hyman of the Woodland high school has announced to the Yolo County Teachers' club, composed of 50 pedagogues, that at their meeting during the current week he desires to discuss the subject, "Liquor in Schools." Since the passage of the dry amendment, youths have found it sport to invade the realms of bootleggers, and in some instances some distressing occurrences have taken place. Hyman has not announced what his observations will be, but it is understood that drastic measures will be taken to eliminate everything spirituous from the student body. Suspensions may be recommended.

No Place in International Conference For Lenin, Says Compers.

WASHINGTON, Jan. 12.—Decision of the American government with respect to participation in the European economic conference called to meet early in March at Genoa probably will await receipt of the agenda for the meeting, it was said today in high official circles.

Officials said that until the scope of the contemplated conference decisions are known the United States hardly would be able to determine the advisability of taking part in the proceedings.

In connection with this announcement of the government's views, Samuel Compers, president of the American Federation of Labor, issued a statement in which he asserted that "there is no place in an international economic conference for Lenin and Trotsky."

Compers said his objections were not to the conference idea, but to the action of the allied supreme council, which constitutes recognition of the soviet as the de facto government of Russia.

Briand Has Held 7 Ministerial Offices PARIS, Jan. 12.—Aristide Briand has held ministerial offices seven times and has never yet left office under pressure.

The cabinet which followed him from the chamber of deputies today, signifying its resignation, was formed by Briand, January 17, 1921. It included the following ministers: Justice, Bennevis; interior, Merland; war, Bathou; marine, Galsch; finance, Doumer (who twice offered his resignation and was succeeded finally by Loucheur); instruction, Berard; commerce, Dir; agriculture, Deprey; labor, Vincent; pensions, Maginot; public works, Le Troquer; liberated regions, Loucheur.

State Wants to "Borrow" Oakland's Music Chief

The Oakland Board of Education today has under consideration a request made by the state board for the services of Glen H. Woods, supervisor of music, in making a survey of California's schools to stimulate the study and adoption of music.

According to Woods, the survey will require four months' time and will not mean that he will lose contact with his duties here. Woods conferred with the state board of education in Sacramento yesterday.

RURAL CONDITIONS. He said the board wishes to ascertain to what extent the study and practice of music has been adopted by the state's schools, particularly in the rural districts, and what obstacles are interfering with the more comprehensive study of music in these schools. He said today:

"The state board of education is interested in having the schools take up the study of music. We are not so much concerned about the larger communities as they already have adopted the study and practice of music in their schools. We are concerned, however, about the schools in the smaller towns and rural districts."

FOUR MONTHS' TASK. "The board wants to find out what these schools are doing and what can be done; the survey would be in the nature of a 'musical cross-section' or investigation of the state. It would require about four months. If I am 'loaned' to the state board of education I will make my headquarters here and arrange to be in Oakland week-ends so I can carry on my duties with the local board of education."

FLAPPER DRIFTER, 'Y' LEADER SAYS

BERKELEY, Jan. 12.—Here it is—the real definition of a "flapper." Miss Mary Ide Bentley, graduate of the university with the class of 1901 and leader in Young Women's Christian Association work, affords this definition:

"Flapper—Anyone without a program in life."

There are 2000 flappers on the Berkeley campus, Miss Bentley told college girls assembled at the university Y. W. C. A.

"The ordinary conception of the flapper is a sixteen-year-old high school girl giddy in her versatility," said Miss Bentley, "but I maintain that a flapper is anyone without a program in life. The flapper typifies inconsistency."

That a program is the most essential thing in life was the parting statement of Miss Bentley to the college girls.

JAPAN'S ACTS IN SIBERIA SCORED BY CHITA CHIEFS

Alleged Agreements With France Made Public, With New Charges Added.

WASHINGTON, Jan. 12.—(By the Associated Press.)—Representatives here of the Far Eastern Republic of Chita made public yesterday a memorandum which, they said, had been submitted to Secretary Hughes as chairman of the Washington conference, and to each delegation, comprising copies of the correspondence alleged to have passed between the Tokyo and Paris governments relating to Siberia.

Most of the documents dealing with an alleged agreement as to the establishment of a Japanese protectorate over Eastern Siberia, already have been published. Their authenticity has been denied by both of the interested governments.

Members of the Chita delegation said they had not received a reply to their request for a hearing before the conference when Siberia is reached. The request was reiterated in the memorandum.

Reviewing conditions in Siberia from the date of allied intervention, the Chita memorandum asserts that the Japanese supported and protected Semionoff in the Transbaikalian region and along the line of the Chinese Eastern Railroad, when his activities were causing the International Technical Board to protest to the allied governments. It alleges that in April, 1920, the International committee adopted a resolution holding that the Japanese military authorities, by placing troops along the Chinese Eastern Railroad assigned by the International agreement to the Chinese guard, had provoked conflicts as a result of which Russians, Chinese and Czech-Slovaks had been caused needless loss of life and the movement of trains jeopardized.

The memorandum continued: "A description of the actions of the Japanese troops on the territory of the Russian Far East would bring out of the darkest pictures in the history of that country. Under the pretext of combating 'Bolshevism' the Japanese murdered en masse men, women and children, burned down villages, destroyed government buildings and caused losses to the state and to the civilian population of many millions of gold rubles."

Bulgaria's King Laughs at Idea Of U. S. Romance

SOFIA, Jan. 12.—(By the Associated Press.)—Young King Boris of Bulgaria says he has no intention of marrying an American girl if he visits America with Premier Stamboulisky next spring, as he hopes to do. The king laughed when the idea was suggested to him that he might find an American queen.

"That is an extremely interesting and novel idea," he said, "but I am too busy with the reconstruction of the country and other vital problems to give any time to matrimonial projects."

"It is true that I have been living a life of great loneliness, devoid of all social diversion, but now have my two sisters with me and that makes a great change. You see, it is the duty of a brother to get his sisters married off first before he, himself, marries," he concluded.

U. S. TO ESTABLISH COAST HOSPITALS

SAN FRANCISCO, Jan. 12.—All American soldiers now being cared for in the states of California, Nevada and Arizona for mental troubles are to be centralized in two great hospitals in San Francisco and Los Angeles, according to plans perfected today at the meeting of the War Veterans' Bureau of the Twelfth District.

All mental cases will be treated by specialists. The only exceptions will be the cases now in training and making progress toward ultimate recovery.

The move is expected to simplify the problems confronting the sub-offices and will prevent the duplication of the employment of specialists at a number of centers throughout the district.

It was also brought out at the conference today that practically all those disabled by gunshot wounds are well on the road to recovery, and that the work of the future will be among the mental and tubercular cases.

It is planned to inaugurate a new placement training survey of the entire district to prevent the training of too many men for one vocation. A system of graduated placement for beneficiaries in placement training who are paid both by the state and the federal government.

Greeks Demote, Lock Up Church Rebel
ATHENS, Jan. 12.—(By the Associated Press.)—An ecclesiastical court presided over by the Metropolitan of Athens today found Most Rev. Melchior Metaxakis, recently elected Patriarch of Constantinople, guilty of attempting to cause a schism in the church. It ordered that he be deprived of his every rank and secular as a monk in the monastery at Zante. Archbishop Metaxakis was not present at the trial.

BONDS TO FURNISH SOLDIERS' BONUS IS AGREED UPON

Plan Is For U. S. To Underwrite Four Billions in British Securities.

By J. BART CAMPBELL, International News Service Staff Correspondent.

WASHINGTON, Jan. 12.—Four billion dollars' worth of British government bonds, underwritten by the United States Government, will provide for the soldiers' bonus if the present plan of administration leaders, decided upon today, is carried out.

Administration leaders are understood to be prepared to go before the country with such a plan intended at once to take care of adjusted compensation for American ex-service men, and the British indebtedness to the United States.

It is proposed that four billion dollars worth of British government securities, guaranteed by the United States Government, will find a ready market in this country if offered for general sale and held to an early and speedy solution of the difficulties confronting the administration relative to the soldiers' bonus and the foreign debt.

A practical business proposition, administration leaders believe that the plan will meet with popular approval.

Negotiations between the American and British governments relative to the new plan for a satisfactory readjustment of the British debt are said to have been started since the beginning of the present armament conference.

It was pointed out that the value of British bonds, underwritten by the United States, could not be overestimated, and that if they were placed on the market would have a tendency to bring about a marked improvement in economic and financial conditions both here and abroad.

The rate tentatively decided upon for the bonus is 2 1/2 per cent a day for each soldier. It is estimated that fully 72 per cent of those eligible for the compensation will accept the cash bonus which would consume practically all of the four billion dollars raised through the British bond issue.

NOTED FRENCH COUNT'S WIDOW BURIED IN L. A.
LOS ANGELES, Jan. 12.—Final honors were paid here to the memory of Mrs. Una de Rudin, widow of the late Count Carlos de Rudin, a character linked in the history of France. Una de Rudin, 81 years of age, died at the residence of her daughter here Monday.

Count de Rudin, whom she survived twelve years, three score years ago was a member of the Garibaldi Legion, and later went to France, where he was sentenced to the guillotine for 30 years for complicity in the hurling of a bomb at the carriage of Napoleon and the Empress Eugenie. Intercession of Queen Victoria saved him and he was exiled to one of the French penal islands.

Sensational escape was followed by his coming to the United States and he joined the 79th New York Engineers and for 30 years followed a career in the American army, retiring with the commission of major.

Fig Men to Meet In Fresno, Jan. 13
FRESNO, Jan. 12.—Fig growers from many districts of San Joaquin Valley are expected to attend the sixth annual fig institute to be held here January 13 and 14 under the auspices of the California Peach and Fig Growers' Association.

Among the speakers will be Dr. H. J. Webber, professor of citriculture of the University of California; Wylie M. Giffen, president of the Sun-Maid Growers; E. Moorehead, sales manager of the state association; and G. Harold Powell, general manager of the California Fruit Exchange.

BLACK HAND SLAYERS SOUGHT
LOS ANGELES, Jan. 12.—Police are searching today for the slayers of a man thought to be G. P. Duquenois, whose bullet-riddled body was found in the "colony" here last night. Members of a black hand ring are believed to have fired the fourteen bullets which pierced the victim's body.

GOVERNOR ORDERS MARTIAL LAW IN TEXAS OIL FIELD

Armed Guards Protect Open Rum Sales, Gambling and Murder, Claim.

AUSTIN, Tex., Jan. 12.—Martial law at Mexia, Tex., an oil town, and the surrounding oil field, was proclaimed today by Governor Pat M. Neff.

Martial law became effective at 5 o'clock this morning under the proclamation which specifies justice precincts No. 4 in Limestone county and No. 5 in Freestone. Brigadier-General Jacob F. Walters of Houston will assume command at Mexia, and has power to call on such Texas National Guard forces as may be necessary to enforce the law.

Texas Rangers have been on duty in the Mexia oil fields since Saturday, when in co-operation with other officers they inaugurated a "clean up" campaign against alleged saloons and gambling resorts.

"Open and flagrant violation of the law, highway robberies, open gambling and selling of liquor" were some of the reasons given by the governor in his proclamation. Mexia is about 100 miles south of Dallas.

Gambling houses, protected by armed men, are in operation night and day at Mexia, center of the "Golden Lane" oil fields, the governor's proclamation declared. Neff asserted that highway robbery is frequent and is accompanied in some instances by murder of peaceful citizens, and that liquor is being openly sold over bars.

ASK THE TRIBUNE Bureau of Information
"Kindly answer in your columns if the registration office on Madison street will be open Saturday afternoon, requests a TRIBUNE reader of the Information Bureau."

No. It was open last Saturday, the last chance to register for the election February 7, and doubtless it will be open again before the August primaries and November election. One may register at court house any time.

The automobile registration office will be open January 18 on Harrison street north of Fourteenth.

"Will you kindly print in The TRIBUNE the name of a leading newspaper in Canada, and where I could subscribe for it?"

The Province, Vancouver; The Journal, Ottawa; The Citizen, Ottawa; The Family Herald and Star, Montreal; The Gazette, Montreal.

The TRIBUNE Information Bureau will answer all questions of a general nature except school or legal problems, debates, trade and firm names, and queries as to the time of day.

The bureau is open every day except Sunday from 10 a. m. to 6 p. m. If answers are desired by mail, stamps must be enclosed. Quickest results can be obtained by telephoning to the bureau. If you have any problems of a general nature to solve send a card to the TRIBUNE Information Bureau, Lakeside 6000.

Arguments Made On Packers' Decree
WASHINGTON, Jan. 12.—Argument on the question of the modification of the big five meat packers' consent decree to enable them to resume handling their unrelated grocery lines began today before the special investigation committee. Modification of the decree was sought by the California Co-operative Packers' Association and other organizations on the ground that their business depended upon the packers' distribution system while the proposal was opposed by the National Live Stock and Cattle Raisers' Association and other associations upon competitive grounds.

DAILY CHANGE IN PROGRAM
"Mary Jane, you are the limit. Have you a written program telling you what to wear every day? If I'm not mistaken you've worn a new blouse every day this week."

"So I have, old dear. Celebrating! I haven't had any new waists of any kind for over a year and with office work, my old ones were rags. I read about Cherry's credit system, so I went over to their store at 515 13th street and got five new blouses at once. The values are certainly wonderful, too. Cherry's store for men is at 528 13th street.—Advertisement."

STATE CHAMBER SEEKS BUSINESS

CHICAGO, Jan. 12.—The Illinois Chamber of Commerce has undertaken to do on a state-wide scale what local chambers of commerce have been attempting to do for each individual locality, that of supplying facts and figures to prospective new businesses contemplating location within the state, according to an announcement made here today by Percy T. Hill, secretary of the state organization.

Hill says that the State Chamber of Commerce also hopes through this movement to keep cities from becoming lopsided from a business standpoint and to assist in bringing some of the cities that are already in this condition back to normal. He cites as a good illustration of this the coal fields of Southern Illinois, where cities of 20,000 can be found with coal mines as the only industry.

"What happens when the mines shut down?" Hill asks. "The entire population is idle," he answers.

"We will attempt to give out information to business enterprises and cities so that the industries may be diversified through the analyzing of conditions that exist or give prospect of existing at some future time," he said.

GIRL MURDERED BY PARENTS IN THEFT ATTEMPT

SOFIA, Jan. 12.—A strange tale of banditry resulting in the murder by mistake of a girl by her own father and mother is vouched for officially by the Bulgarian police.

Ivan, a peasant of Hazzard, sold two calves for 10,000 leva and started home from the market with his daughter Milka. Fearing robbers, he gave the money to his daughter. The father was attacked on the road and killed by two men who saw him make the sale.

Milka fled and sought refuge in a peasant cottage where a woman and her daughter comforted her and gave her dinner. Later Milka was sent to bed with the woman's daughter.

When the husband returned he told his wife he had killed a man uselessly, as the money he sought had been carried off by the murdered man's daughter.

The woman to whom Milka had told her story, repeated it to her husband, and the two determined to kill the girl as she lay asleep to get the 10,000 leva.

Milka, in the daughter's room upstairs, overheard and escaped through a window. She was taken to the police by Milka, they found that the old couple had gone upstairs and killed their own daughter by mistake in the dark.

THREE INDICTED IN MAIL HOLDUP

SACRAMENTO, Jan. 12.—John Hadden, Walter S. Hooper and A. H. Cain are defendants in an indictment returned by the Federal Grand Jury here upon the completion of an investigation into a mail robbery in the Southern Pacific yards here last May, when bonds to the value of \$187,000 were stolen.

The three were taken into custody several months ago, after a letter written by Cain to Hooper, which is said to have told of the sale of some of the stolen bonds, was intercepted by postal authorities.

The three men are charged with conspiracy to receive and conceal property they knew was stolen. Hooper is a bond broker and the other men are auto mechanics.

Roy Gardner, was at first suspected of the robbery in the Southern Pacific yards here, as he was taking mail custody in connection with a mail robbery at Newcastle only a few days after the local theft.

San Francisco News

'Dry' Heads To Fall On Yellowley Visit

SAN FRANCISCO, Jan. 12.—It is rumored that at least two Federal prohibition officials are slated for the ax on the arrival here of E. C. Yellowley. Yellowley is coming here as special representative of Commissioner of Prohibition Roy Haynes, according to Washington despatches. It is said that he is coming here to recognize the Pacific Coast department.

WIFE TO CHOOSE BETWEEN HOME OR SCREEN LIFE

SAN FRANCISCO, Jan. 12.—A decision between a movie career and a home is to be made this week in the case of Mrs. Margaret E. Pohlman, 1224 Bellevue avenue, Burlingame. She is suing George W. Pohlman, insurance broker, for divorce. It is said that the husband interferes with his wife's ambitions to star on the silver screen. It was stated before Judge Cabanis yesterday that the husband begged his wife not to go into the movies. Pohlman is also said to have struck Mrs. Pohlman in a fit of temper.

Packer Half Century Quits Active Work

SAN FRANCISCO, Jan. 12.—Thos. B. Dawson, general superintendent of the California Packing Corporation, retired from active work with the organization yesterday. He was engaged in the fruit packing industry for 50 years.

Runaway Girl Is Found At Salt Lake

SAN FRANCISCO, Jan. 12.—Edith Muter, 16-year-old San Francisco girl, who left home recently to make her way in the world, has been located in Salt Lake City. On leaving home she outlined her campaign of conduct in ten New Year resolutions. She was found in the Utah city through a business reference. Mrs. Kate Sullivan of the local police department left here today for Salt Lake City to bring the girl home. She lives at 478 Vernon street.

Marriage To Enter U. S. Is Annulled

SAN FRANCISCO, Jan. 12.—The marriage of Frank Marino, 35 Federal street, and Thelma Marino, Australian actress, was annulled yesterday in Superior Judge Graham's court. Marino complained that his wife confessed that she had consented to marry him in order to enter the United States. Marino is a sailor. The courtship took place in Sydney. The wedding was celebrated in San Francisco on April 23, 1921.

Prince Tokugawa Lauds Arms' Aims

SAN FRANCISCO, Jan. 12.—Prince Iseato Tokugawa, delegate and president of the House of Peers of Japan, is here on his way home from Washington. He is accompanied by nine other delegates. In his opinion the armament conference has created possible differences between this country and Japan.

AGUINALDO NIECE MAKES VISIT TO BECOME NURSE

SAN FRANCISCO, Jan. 12.—Petra Aguinaldo, niece of the former rebel chief of the Philippine revolution, arrived here yesterday from Hawaii. She is on her way to Washington. In the capital city she will study to be a nurse. She stated that Aguinaldo is contemplating paying a visit to this country.

Safety Hearings Are Announced

SAN FRANCISCO, Jan. 12.—Several public safety hearings have been announced by the California Industrial Accident Commission. A general safety order for the operation of hoists and elevators on construction work, and re-adoption of trench construction safety orders will be considered. The first hearing will be in Room 322 at 525 Market street, January 17, at 10 a. m., on hoists and elevators. Hearing on the trench construction orders will be held at the same address at 10:30 a. m., January 17.

U. S. Guards Fire On Police As Smugglers

SAN FRANCISCO, Jan. 12.—Believed to be part of a ring of opium smugglers, the identity of the two police officers who hoarded the Chief of Police Nanking yesterday and refused to be searched by customs inspectors when leaving, is the subject of an investigation. Four shots were fired after the police left.

According to L. J. Flaherty, survivor of the shooting, the police officers were reported to be in the alley of the steamer about 2 o'clock yesterday morning. Customs guards were detailed to investigate, but the officers had left.

About 4 o'clock the guards spotted two men dressed in police uniforms go up the gangplank. Shortly after they emerged, but when ordered to a halt they ran.

New State Library To Be Commenced

After years of delay, ground is to be broken for the new state library building at Sacramento, according to word received by Miss Mary Barnby, Alameda county librarian. Construction of the building was authorized in an election in 1913 approving a building bond issue of \$2,000,000. The world war postponed steps toward its erection.

According to Miss Barnby, the completion of the new state library building will mean much to the Alameda county library, as it will become virtually a store house for the county libraries of the state and greatly enlarge their field of usefulness. The Alameda county library receives a shipment of loaned books from the state library almost daily.

Communists Crowd Jails of Yugo-Slavia

BELGRADE, Jan. 12.—Communism seems to have been suppressed in this country. The vigorous action of the government which recently passed a law imposing the death penalty upon enemies of public security and offenders against the state has struck terror into the hearts of radicals and revolutionaries. The jails of the country are choked with persons accused of Bolshevik or Communist activity and others who are not in prison are declared to be either thoroughly cowed or to have fled from the country. Those persons implicated in the murder last July of M. Drachkovitch, the minister of the interior, and in the attempt to assassinate Yugo-Slavia's young king Alexander will be brought to trial in January. Among them are a number of Communist deputies in parliament.

If you see it in The TRIBUNE tell them so.

Jailed Six Months For Stealing Milk

MARYSVILLE, Jan. 12.—Henry Thomas was sentenced here to serve six months in the Yuba county jail for the theft of a bottle of milk from a doorstep.

"Marysville babies are not to be robbed of milk," commented Police Judge W. E. Langdon, "if heavy sentences will stop these thefts."

Tailors To Continue Present Sale Plans

SAN FRANCISCO, Jan. 12.—A telegram has been received from the executive secretary of the Pacific Coast Merchant Tailors' Association now in convention at Portland, Ore. The telegram states that the convention is proving highly successful. It was decided to continue the present weekly and piece sales until conditions change. The decision was reached by unanimous vote.

U. S. Guards Fire On Police As Smugglers

SAN FRANCISCO, Jan. 12.—Believed to be part of a ring of opium smugglers, the identity of the two police officers who hoarded the Chief of Police Nanking yesterday and refused to be searched by customs inspectors when leaving, is the subject of an investigation. Four shots were fired after the police left.

According to L. J. Flaherty, survivor of the shooting, the police officers were reported to be in the alley of the steamer about 2 o'clock yesterday morning. Customs guards were detailed to investigate, but the officers had left.

About 4 o'clock the guards spotted two men dressed in police uniforms go up the gangplank. Shortly after they emerged, but when ordered to a halt they ran.

EDITORIAL

Have you noticed the new automobile plates containing the word "Oakland" in blue embossed letters on a white background? These plates are being issued by the Oakland Chamber of Commerce and are being distributed through our store.

They are made of heavy sheet metal, the same as your State license, and can be attached underneath your license plate by two bolts which fit the holes in the license plate, enabling a person to attach them easily.

Every auto tourist should have one and assist in advertising Oakland. We sell them at cost, which is 25c a pair.

COLORED SILK UMBRELLAS AT BARGAIN PRICES

Every colored silk umbrella in stock is offered to you this week at 1/4 off the regular price. We have a splendid variety of all the new styles and by purchasing one now you will have practically a full season's use.

During the holidays, shoppers told us that we were offering exceptional values on these umbrellas, from which price we make this further reduction of one-quarter. It has been several years since we have offered umbrellas of this quality at these prices.

35c WRITING PAPER

We have just received a shipment of Eaton-Grane and White Company's Colshire and Boylston Line Stationery.

This paper comes in boxes containing 24 sheets and 24 envelopes. It is of linen finish and plenty good enough for ordinary correspondence. The flaps of the envelopes are finished with round corners. Special, 35c a box.

KODAK ALBUMS REDUCED 1/3

Now Is the Time to Buy Them.

Now is the time to buy a Kodak Album, and these long winter nights afford many opportunities to paste in your pictures and systematically arrange them so that you can enjoy them in the future.

The snap-shots you are taking today will be priceless twenty years from now and the best way to keep them is to put them in an album, (preferably an album for each trip).

This week we are selling Kodak albums at one-third off the regular price. This means that you get a \$6.00 album for \$4.00, and a \$9.00 album for \$6.00. We have them at all prices and in a great variety.

Remember that a Kodak album also makes an appropriate gift. Why would it not be a good idea to buy several now to give your friends next Christmas?

THAT WONDERFUL NEW SPOT LIGHT

Throws a 300-ft. Beam of Light.

We have had considerable success during the last two months about the wonderful new Eveready Spot Light that throws a beam of light 300 feet.

We feel justified in giving this article continued publicity for the reason that it is a very wonderful contrivance. It is manufactured by the makers of Eveready Spot Lights, and it was necessary to invent a new Mazda globe and a new type of reflector in order to perfect it.

These Spot Lights have an adjustment by which you can spread or concentrate the light according to your requirements. Each light contains two extra globes, which are carried in a compartment at the end of the tube so that in case your globe should ever blow out you can instantly replace it with a new one.

No other spot light that we know of has ever been invented that equals this. The price includes battery and extra globe. \$3.75 and \$4.00.

LYNWOOD HOT WATER BAGS

At a Special Price—\$1.95

Two Days to Buy Them.

Those who have been using Lynwood Hot Water Bags and those who have been thinking of buying one will be interested in the special sale of these bags now at our store. We are selling them temporarily at \$1.95 each. In all of our experience covering a period of perhaps fifty years in the drug business in this city, we have never handled a hot water bag that gave as good satisfaction as these Lynwood bags.

We will probably sell several hundred of them at this special price, but have plenty in stock for everybody. \$1.95 ea.

THERMOS BOTTLES AT REDUCED PRICES

Thermos bottles have been reduced several times since the war, and the latest reduction has brought the price down so that we can sell the plain finished ones at \$2.00 for pints and \$2.00 for quarts.

The nickel corrugated styles are now being offered for \$3.00 for pints and \$4.00 for quarts.

Extra fillers can now be purchased in the pint size at \$1.25 and the quart size for \$1.75.

These are the genuine Thermos bottles and should not be compared with the cheap imitations that are now flooding the market.

CURE THAT COLD, QUICK!

There seems to be quite an epidemic of colds going around. Some people call it gripple and one doctor has named it "three-day flu." If you feel a cold coming on you might be able to forestall quite a serious illness by purchasing a bottle of Bowman's Cold Tablets. Of course the best thing to do is to see a doctor, but if you do not feel that you can afford to do that by all means try to do something helpful before the cold gets a hold on your system.

Cold Tablets seem to be quite helpful in many cases.

A NEW RUBBING ALCOHOL

Put Up Under a New Formula.

We desire to call your attention to a new rubbing alcohol that we are now permitted to put out under a new formula that eliminates many of the objections that people had to previous formulas. Of course this preparation conforms to government requirements and is for external uses only.

The ingredients that are put into this rubbing alcohol in order to make it salable under the law are such that they render it even more valuable for rubbing purposes than would have been the case if they were eliminated.

We feel quite certain that those who use alcohol for this purpose will be highly pleased with this preparation. It is called Aikoi Rub, selling at 25c, 40c and 75c a bottle.

First Aid Course

At Technical High
Registration may be made during the coming week in the courses in first aid and home care of the sick is being offered in room 228, Oakland Technical High school, by the local chapter of American Red Cross. Women interested in mastering the simple rules for caring for their families when ill, particularly mothers, are urged to enroll in the free classes, which are under the direction of trained instructors. Diplomas will be presented on satisfactory completion of the work. Students in home care of the sick will meet on Monday and Wednesday night at 7:15 o'clock. The first all classes are named for the same hour on Tuesdays and Thursdays.

25 MEASURES
FACE VOTERS
IN NOVEMBER

Fourteen Changes in Constitu-
tion, Six Initiative, Three
Referendums in List.

SACRAMENTO, Jan. 12.—A total of twenty-five measures, consisting of fourteen constitutional amendments, six initiative measures, three referendums and two bond issues, have qualified for places on the ballot for the next general election to be held November 7, according to official announcement here by Charles J. Hagerly, election statistician in the office of Secretary of State Frank C. Jordan.

Hagerly also expressed the belief that several additional initiative measures will be qualified by different organizations by August 8, the last day for filing initiative petitions with the secretary of state. It is not expected by Hagerly, however, that the total number of measures to be submitted to the voters will equal the record of 1914, when forty-eight measures were placed on the ballot. In 1920, twenty measures were voted on.

The initiative measures to be voted on include the following: Measures proposed by the Osteopaths and Chiropractors to create their budget fostered by the commonwealth club of San Francisco for the purpose of requiring the governor to submit a budget to the legislature within thirty days of each regular session; measures providing for the taxation and regulation of public owned utilities along the lines of privately owned public utilities, and the so-called water and power initiative designed in the interest of municipalities. The fourteen constitutional amendments include the two bond issues designed in the interest of former service men.

The referendums include the Wright prohibition bill, the so-called state housing act relating to the shingle bill passed at the last session of the legislature and the bill which would prevent banks from practicing law.

CLEARED OF 1898 MURDER.
EUREKA, Jan. 12.—Lagoon George, on trial here for the last ten days for the alleged murder of Jimmie Jones and a Klansman, was acquitted by a jury last night after four hours' deliberation.

KINGS RIVER WATERS
Will Be Impounded

FRESNO, Jan. 12.—Following three meetings held here to consider formation of the Pine Flat water storage and conservation district, it was announced that attorneys and engineers of the eighth irrigation districts involved will be asked to prepare organization petitions for circulation immediately.

It was also decided to ask chambers of commerce in the San Joaquin Valley territory proposed in the conservation district to underwrite \$40,000 for preliminary work costs.

The Pine Flat district will be organized under the California water storage act. It proposes to construct a dam to impound flood waters of the Kings river above Piedra.

HUGHES INVITED TO S. F. BAR CONVENTION.
SAN FRANCISCO, Jan. 12.—The 1922 convention of the American Bar Association will be held in San Francisco during the week of August 6, according to word received here. This was decided upon by the association's executive committee which is in session at Tampa, Fla., and will bring to this city leaders of the American bench and bar from all sections of the country.

Secretary of State Charles E. Hughes has been invited to deliver the annual address, Lord Shaw, notable figure of the English bar, will be the guest of the association, and Elihu Root has announced his intention of attending the meeting.

ACTIVITIES
OF WOMENDinner to Be
Given at
Perry Home

At her home in Chabot road, Saturday evening, January 21, Mrs. Raymond Arthur Perry has bidden a number of friends to dine, the evening planned in compliment to the hostess's husband, Mr. Perry, who has been spending the holiday season with his family. He will leave shortly for New York where his business interests are. Places will be set for more than a score of guests.

The home of Mrs. Herbert Hall in Piedmont was the setting this afternoon for a smart affair for the younger maids and matrons who greeted two interesting visitors to the Eastbay section—Mrs. Van Dyke and Mrs. John Thompson of Washington, D. C. A few close friends of the hostess assisted in receiving.

Mrs. W. R. L. Campbell entertained informally at bridge this afternoon at her Claremont home, this being one of a series of similar affairs she is sponsoring this winter.

LEAVES FOR EAST TO STUDY ART.
Miss Virginia Crane of Piedmont will study art in the east this winter and is en route to New York. She is much interested in photography and has won recognition for her excellent work in portraits.

The evening of January 27 the San Francisco Bay Branch of the American Association of University Women will hold a dancing party at the Sequoia Club, 1725 Washington street. The guests will include the members and eligible alumnae and their escorts. As many of the alumnae reside in the Eastbay the affair is of social interest on this side.

Mrs. George Tyson entertained recently at luncheon at the Francisco club across the bay, later taking her guests to the symphony. Among those who shared her hospitality were Mrs. Edson Adams, Mrs. Louis P. Montague, Mrs. Minnie Clarke Porter, Mrs. William Matson, Mrs. Ferdinand Peterson, Mrs. Frederick

MISS MILDRED CROHE, a Denver belle who has come to Berkeley for the winter. Miss Crohe is registered at the Hotel Claremont, where she is the guest of her aunt.—Boye portrait.

LUNCHEON FOR BRIDES-ELECT.
Miss Ruth Lent, bride-elect, is to be the motif for a luncheon which Miss Dolly Madison Payne will give at the Palace on Saturday afternoon. Miss Dora Fagan will be hostess at luncheon the afternoon of January 18, with Miss Lent the honor guest.

Dr. and Mrs. Langley Porter have announced the betrothal of their daughter, Miss Louise Porter, and Lieutenant Duncan Phillip Frissell, U. S. A. Miss Porter has many friends this side of the bay as she has been educated at Miss Ransom's as well as at Miss Burke's in San Francisco. Last winter the bride-elect took a course in culture in Boston. She made her debut early in the winter at a reception given by her parents.

Major Thomas Frissell, U. S. A., retired. He is stationed at the Presidio. Mr. and Mrs. Wiggington Greed and their son, Starwood, and daughter, Isabel, have returned from a trip through the south over the holidays. Dr. and Mrs. Benjamin Ide Wheeler are also home from Pasadena, where they were guests at the Maryland.

BURGLARS BUSY;
RINGS ARE STOLEN

Four diamond rings valued at several thousand dollars were stolen yesterday from the home of Jeanette Wolflick, 2229 Olive street. She told Police Inspectors Arthur Sanderson and Robert Goodwin, who investigated the case, that the rings were left in a jewel box in the parlor. The rings are described as follows:

One karat diamond ring; one cluster ring, platinum setting and eight diamonds set in the center; man's gold ring set with seven diamonds and one gold ring with a diamond.

Five other small burglaries were reported to the police as follows: W. E. Saulpaugh, 848 Walviska street, clothing, jewelry and \$7 taken.

Rush Meadow, 836 Broadway, clothes and a watch taken.

MONTHS OF SUFFERING

How a Baltimore Girl Re- covered Her Health

Baltimore, Maryland.—"For sev-
eral months I suffered with severe
backache and general weakness. I
could not sleep comfortably at
night for pains in my back. I found
your book at home one day and af-
ter reading it began at once to
take Lydia E. Pinkham's Veg-
etable Compound.

pound. I have had
very good results and some of my girl
friends are taking it now. You may
use this letter to help other girls, as
the letters in your book helped me."
—ROSS WATSON, 5018 Roseland
Flats, Baltimore, Md.

That is the thought so often ex-
pressed in letters recommending
Lydia E. Pinkham's Vegetable Com-
pound. These women know what they
have suffered, they describe their
symptoms and state how they were
finally made well.

Lydia E. Pinkham's Vegetable
Compound is a medicine of natural
medicinal roots and herbs, and without
drugs, to relieve the sickness women
so often have, which is indicated by
backache, weak feelings, nervousness,
and no ambition to get anything done
or to go anywhere. It has helped
many women. Why not try it?

Ends Stubborn Coughs in a Hurry

For real effectiveness, this old
home-made remedy has no equal.
Easily and cheaply prepared.

You'll never know how quickly a
bad cough can be conquered, until you
try this famous old home-made rem-
edy. Anyone who has coughed day
and all night, will say that the
immediate relief given is almost like
magic. It is very easily prepared,
and there is nothing better for coughs.
Into a pint bottle, put 2 1/2 ounces
of Pinex; then add plain granulated
sugar syrup to make a full pint. Or
you can use clarified molasses, honey,
or corn syrup, instead of sugar syrup.
Either way, the full pint saves about
two-thirds of the money usually
spent for cough preparations, and
gives you a more positive, effective
remedy. It keeps perfectly, and
tastes pleasant—children like it.
You can feel this take hold instantly,
soothing and healing the membranes
in all the air passages. It promptly
loosens a dry, tight cough, and soon
you will notice the phlegm thin out
and disappear. A day's use will usually
break up an ordinary throat or chest
cold, and it is also splendid for bron-
chitis, croup, hoarseness, and bron-
chial asthma.

Pinex is a most valuable con-
centrated compound of genuine Norway
pine extract, the most reliable rem-
edy for throat and chest ailments.
To avoid disappointment, ask your
druggist for "2 1/2 ounces of Pinex"
with directions and don't accept any-
thing else. Guaranteed to give abso-
lute satisfaction or money refunded.

KENDRICK TELLS PROBLEMS FACING STOCK GROWERS

Senator Praises Agricultural
Block; Harding and Secre-
tary Wallace Lauded.

COLORADO SPRINGS, Colo., Jan.
12.—Never before have the stock
growers of the country been con-
fronted with as many or as serious
problems as those being faced today.
Senator John B. Kendrick of Wyom-
ing told the American Live Stock As-
sociation in convention here today.

"The solution of our task," said
Senator Kendrick, "lies along the line
of patient and courageous co-opera-
tion on the part of all. Let it not be
said that the laborers are few or
lacking in diligence."

Senator Kendrick voiced his ap-
proval of what is known as the ag-
ricultural bloc in the Senate when
he said:

"The prospect of obtaining mod-
ifications in the tariff bill, favorable
to the wool growers and live stock
producers, is increased by the fact
that nearly every member of the so-
called agricultural bloc is in favor of
such changes. And I may say here
that the membership of this bloc is
composed almost exclusively of Sen-
ators from the West and South, and
includes sometimes like an even
number of members of both politi-
cal parties."

Senator Kendrick praised Presi-

Fremont Pupils Gain Aid From Active Helpers

By EDNA B. KINARD.

Six young women acknowledging
to a scholarship fund their present
opportunity for higher education;
many hours spent depending upon
assistance with car fares and daily
necessaries for their chance of a high
school education; noon dances and
attractive luncheon quarters; wel-
fare of families with the school family
are written to the unique program
being put across by the combined
efforts of the Parent-Teacher As-
sociation, faculty, and students in
Fremont High school, which claims
find no duplication in California.
Committees on scholarship, thrift,
caterers and welfare made up of two
representatives each from the
mothers' club, faculty and student
body, are responsible for the large
task. Six months' effort will lend
inspiration to reports of the work,
which will be an important feature
of the Wednesday afternoon meeting
of the Parent-Teacher Association in
the little Theater of the school.

Preliminary glimpses of the re-
cords show that four students are en-
abled to continue in the University
of California; one in a nurses' train-
ing school and one in a military
school, through the school scholar-
ship funds under the custody of a
committee to which Mrs. A. E.
Thurston is the parent member.
The thrift committee is adminis-
tering the funds which furnish to
ambitious boys and girls the small
sums for car fares, luncheons, etc.,
which make education possible. Mrs.
Hattie Campbell and Mrs. Harry
Meyers represent the mothers' club.
Dainty curtains and window boxes
in the cafeteria with the inaugura-
tion of noon dances is owed to the
cafeteria committee, Mrs. J. W.
Anderson and Mrs. George Heron, par-
ent members.
Distribution of 353 pounds of meat,
150 loaves of bread, 32 pounds of
butter, besides quantities of fresh
fruits and vegetables, canned goods,
garments and shoes at the holiday
season is a part of the record of the
Welfare committee. Mrs. Ethel
Appeltoft and Mrs. William Fliege
are parent representatives.
Missen, chairman of the committee
of education, California Congress of
Mothers, will be the Wednesday
speaker. She will outline the state
laws affecting women and children.

"Economics in School Administration"
will be discussed by Superin-
tendent of Schools Fred M. Hunter
before the economics section of Oak-
land County, California Civic League
of Women Voters, meeting tomorrow
morning in Adams Temple. Mem-
bers of the center will be welcomed.
Sections in current events, public
speaking and parliamentary law an-
nounce interesting programs.
"The Proposed" is the subject for
the general program at 2 p. m. Dr.
George C. Pardee will speak in favor
of county division, W. E. Gibson offer-
ing the opposing arguments. Mrs. O. F.
Cole will be chairman of the day.

Intimate sketches of many of the
notable men in attendance upon the
Washington Conference were given
by Mrs. Juliet James before Twen-
tieth Century club women this week.
In recognition of Thrift Week, which
will be celebrated beginning Tues-
day, Mrs. Richard G. Boone, chair-
man of thrift, outlined the general
plan which is being adopted through-
out the country before the union
meeting.

Sharing with the sub-debutante set
the convenience of their Derby street
club house, the Berkeley women are
sponsoring the Los Angeles assembly
on Saturday night. The committee
in charge of the dance for the chil-
dren and grandchildren of the mem-
bers and their friends includes: Mrs.
Edward R. Elliott, Mrs. Harold C.
Holmes, Mrs. W. H. Nichols, Mrs.
H. E. Sanborn, Mrs. L. M. Walters,
Mrs. Ralph Moore, Mrs. Ora B. Lutz,
Mrs. D. H. Small.
A Party Dance was introduced
into the club assembly on Tuesday
night which was arranged for mem-
bers and their escorts by Mrs. J. F.
McCullough, Mrs. Hubert G. Trost,
Mrs. E. R. Elliott, Mrs. E. O. Shreve,
Mrs. Robert Duncan, Mrs. H. H. San-
born, Mrs. F. E. Hueter, Mrs. T. D.
Stevenson.

"Unemployment and Its Solution,"
and the playground system of Oak-
land will lend themes to the Fruit-
vale Women's club program on
Thursday afternoon, January 10. W.
A. Goodrich, director of the Muni-
cipal Woodyard, and Jay E. Nash, di-
rector of recreation, will be the
speakers. A special program of
music will be given.

VIRGINIA P. CLARK COMES FOR NEW MURDER TRIAL

**Am Innocent, Prison Tomb
Woman Convicted As
Spouse's Slayer, Says.**

Mrs. Virginia P. Clark arrived at the county jail today to face her second trial for the alleged murder of her husband. She weighs 15 pounds more than she did when she was sent to the county jail a year ago, and declares she never felt better in her life.

Mrs. Clark, who was convicted last year of the murder of Chester Clark, a Key Route conductor, was granted a new trial by the State Supreme court on the ground that evidence introduced at her trial was not legally admissible.

ACCUSES "THIRD DEGREE."
"I know in my own heart that I am innocent," Mrs. Clark said this morning. "This new trial will give me the chance to prove it. I would rather die than remain in San Quentin the rest of my life. Although one's physical side is well cared for, it is like being in a tomb as far as all that makes life worth living is concerned."

Mrs. Clark asserted today that the police had wronged her alleged confession from her by denying her sleep until she had made it, and by assuring her that they were her friends. It was because of the manner in which this confession, which was used against her at the trial, was alleged to have been obtained, that Mrs. Clark was granted a new trial by the Supreme court.

TRIAL SET TUESDAY.
The date for Mrs. Clark's second trial will be set next Tuesday, when she will be formally arraigned before Superior Judge Lincoln S. Church. "If I am acquitted I will go back to my people in Virginia and take up stenographic work," she said this morning at the county jail.

Mrs. Clark is 28 years old. She was brought back from San Quentin by Deputy Sheriff Al Smith and Mrs. Hannah White, jail matron. Cheers were raised by many of Mrs. Clark's fellow prisoners at the penitentiary as she was led away, according to Smith.

Father Slays Child, Shoots Wife, Self

MONTREY, Jan. 12.—M. A. Duffey, 40 years old, an insurance man of this city and Santa Cruz, last night shot and killed his five-year-old son, and then shot and killed himself. Mrs. Duffey is in a local hospital, where it was doubted if she would live until morning. The authorities said they believed the man was mentally unbalanced. Duffey recently came back to Monterey after spending several months in a sanitarium at Colfax, Cal. His health had been bad for several years, and he had been in the hospital. The Duffeys went to a motion picture show tonight and appeared to be in the best of spirits. The shooting occurred at the home of an aunt of the child, where the latter had been staying.

Vallejo Woman To Seek Annulment

FAIRFIELD, Jan. 12.—Marion Culver has filed a suit for annulment of marriage against her husband, Earle E. Culver of Vallejo, alleging extreme cruelty. The plaintiff alleges that she married the defendant on December 24, 1921, against her wishes and that her consent to said marriage was given under duress and fear. She claims that the defendant kept her secluded and away from her friends and parents for a period of two days and under the influence of liquor and then threatened to expose her if she did not marry him. Culver claims that immediately upon the performing of the marriage ceremony she left her husband and did not live with him as man and wife.

Broadway, Twentieth Building Is Planned

Purchase of building site on the northeast corner of Twentieth and Broadway was announced today as the most recent step in Oakland's new building program. The purchase price was not disclosed. The property was owned by P. B. Cross and was sold to Frank J. Edoff, who will build there in the near future. What class structure will be erected on the property has not yet been decided. The site has an 80-foot frontage on Broadway and 50 on Twentieth street.

County Fair Urged At Modesto Meeting

MODESTO, Jan. 12.—The first meeting of the directors of the Stanislaus County Fair, begun Jan. 12, 1922, was marked by a resolution favoring a county fair and passage of a resolution demanding enforcement of the law limiting the weight of loads to be carried by trucks. The directors are anxious to see a county fair in Modesto and urged that the county not wait for permanent buildings, but hold the fair under tents the coming year. C. E. Fisher of Huntington, a new director, demanded action against trucks, saying that the country roads are being torn to pieces by them. A committee was appointed to wait on the county supervisors and see what can be done towards enforcing the law.

Pythians Install Turlock Officers

TURLOCK, Jan. 12.—The Knights of Pythias installed the following officers at their annual gathering at the fraternal hall: L. W. Boles, C. C.; Fred Bowler, V. C.; Clifford Robinson, prelate; Milo Smith, M. A.; Walter Wilson, I. G.; John Bates, O. G.; Samuel Cornell, K. of K.; C. E. Garner, M. of P.; Frank Dimmock, M. of E.; and R. F. Wells, M. of W. Following the installation the rank of equire was conferred upon A. F. Ferguson and E. A. Erickson. At next Monday's meeting these new candidates will be given the rank of knight.

U. S. TO RE-GUN WARSHIP

LOS ANGELES, Jan. 12.—The dreadnaught Nevada, of the Pacific fleet, will be sent to the navy yard at Norfolk, Va., for annual overhauling and re-gunning the turrets. It was announced at the navy department yesterday. It will probably leave in April.

WOMAN MISSING AFTER QUARREL, HUSBAND HUNTED

TACOMA, Wash., Jan. 12.—From the hesitating words of a frightened six-year-old girl the police of Tacoma were last night attempting to find new clues in the disappearance of Mrs. L. P. Rutherford, while other members of the police department were in southwest Washington conducting what they reported by long distance telephone to be a fruitless search for John Rutherford, the missing woman's husband.

Although Rutherford had previously reported his wife as missing, the criminal aspect did not enter the case until yesterday when Mrs. L. P. Rutherford was not conducting himself properly with the little girl, Rev. Henley, now a pastor at Chesham, Wash., stated over the telephone last night that he had called Rutherford in his office for an explanation and had later called at the Rutherford home with the intention of taking the child and having Rutherford arrested. He arrived to find Mrs. Rutherford missing and Rutherford gone.

Accused of Keeping Cow in Basement

ALAMEDA, Jan. 12.—Domingo Gonzalez, 1895 Eagle avenue, failed to put in an appearance today in court called today on a charge of keeping a cow in his basement. Police Judge L. R. Weinmann ordered him arrested on a bench warrant. Gonzalez was arrested several days ago charged with having a cow tied in the basement of his house. He explained that the cow wasn't regularly kept there but it had been playing with his children and had followed them in. After that it was found impossible to induce the animal to go out.

Unreasonable Sums Expended, Is Charge

**BY ASSOCIATED PRESS
LEAGUES VOTED TO TRIBUNE**
BOSTON, Jan. 12.—Charges that the trustees of the Christian Science Publishing Society had donated more than \$25,000 from trust funds to the business manager of the society and various editors in addition to regular compensation, and that "large and unreasonable sums" were expended for a branch office in San Francisco, were made today by the directors of the First Church of Christ, Scientist, before Judge Crosby of the State Supreme court.

Shots Fired in Chase After S. J. Jail Fugitive

SAN JOSE, Jan. 12.—Shots were fired in the neighborhood of the 700 block in South Eleventh street here yesterday afternoon when Chief of Police J. N. Black, members of his department and county sheriffs, joined in a search for 21-year-old Louis Miranda, who escaped from the yard of the local county jail several weeks ago while serving time on a petty larceny charge.

The lad was finally captured, crouched behind a bureau in the home of W. C. Dose, 830 South Eleventh street, where he had hidden himself after invading the home and putting to rout women members of the household.

Chief of Police Black, while riding in his automobile near his home, discovered Miranda and recognized him as the escaped prisoner. The 21-year-old youth, however, was by no means blind minded and spotted the chief at the same time.

Pretending to be going to the back door of a house, Miranda fled and escaped over a back fence, whereupon he started his flight.

Chief Black, in his younger days, held a college record for sprinting and proceeded to show to himself and Miranda that he still has a lot of the old-time stuff left in his system. But Miranda was a clever worker and a fast one and in a few moments he had eluded Black.

Another moment or two later and the reconfident chief again discovered his man and without warning drew his gun and fired three times at the escape, shouting to him at the same time to stop. There was no stopping him, however, was by no means blind minded and spotted the chief at the same time.

By this time Chief Black began to hold a wholesome desire for assistance in the chase and summoned aid from both police and sheriff's offices.

Upon the arrival of the officers Mrs. Dose came running from her home, stating that the man had invaded her home and imparting the information that he was armed. The posse of deputies and police then invaded the entire house, looking through every wester of it. It was as they were about to give up the chase that the man, who was about as a "fizz" to Detective Charles Hertel and Officer Louis Sepulveda drew from a corner a bureau, revealing crouched behind it the form of Miranda. The lad surrendered without a struggle and was found to be unarmed.

\$3700 BALANCE IN AD FUND IS FOUND PROMISED

Advised that approximately \$3700 of the Alameda county advertising fund remains unexpended, a committee of the Alameda County Real Estate Board appeared before the board of supervisors for the second time today, asking for a contribution to the fund being raised for the entertainment of delegates to the state convention of California real estate men to be held here next week.

Funerals Planned For Tragedy Victims

WOODLAND, Jan. 12.—Although the services over their bodies will be held here jointly tomorrow, Mr. and Mrs. William G. Bennett, who met tragically at the foot of the stairs at the Hotel Woodland, Tuesday night, promising to return by 10 o'clock. She has not been seen since then, she said.

C. J. Norwood, who was summoned to the scene following Mrs. Bennett's visit to his office, left for San Francisco to search for his son. The younger Norwood is married, but has been separated from his wife for some time, the father said.

Girls of "Y" Plan For Thrift Week

The board of directors of the Young Women's Christian Association will meet on Tuesday, when reports from the various departments will be presented. Thrift Week will be inaugurated on Tuesday, the clubs and groups, recognizing the national program with special exercises.

The Girls' Work department is joining other groups of girl workers about the bay in urging a department of girls work in the University summer school curriculum. Miss Dorothy Grout is in Aslamar, attending a three-day conference of Girl Reserve workers.

More Men Called To Agriculture Parley

WASHINGTON, Jan. 12. (By the Associated Press).—An additional list of delegates to the national agricultural conference, including fifty-five names, and increasing the total number of those who have accepted invitations to sit in the conference to 145, was announced today by Secretary Wallace.

The list issued today included the names of Samuel Gompers, president of the American Federation of Labor; Edwin T. Meredith, former secretary of agriculture; Bernard M. Baruch, former chairman of the war industries board; H. F. Lever, member of the federal loan board, and H. S. Firestone, tire manufacturer of Akron, Ohio.

DIVORCE SOUGHT IN OAKLAND IN KIDNAPING CASE

**Tracy Man Offers \$100 For
Arrest of Ex-Wife and
Return of Child.**

Offering a reward of \$100 for the arrest of his divorced wife, Isabelle Johnson, 34, of Oakland, and the return of their 2½-year-old daughter, whom she is alleged to have kidnapped, Leonard Johnson of Tracy, has mailed printed notices of the offer to the Oakland police. The notices contain the description of Mrs. Johnson and the child.

The kidnapping charge was sworn to in Stockton. According to the complaint, Mrs. Johnson went to Stockton by train. Hiring an automobile she is alleged to have gone to Tracy, where she snatched her 2½-year-old baby, Norma, from the arms of Mrs. Bert Saline, in whose care it had been left by the husband.

Again boarding the train for Stockton, the alleged kidnaper was traced as far as Lathrop, where she disappeared in another auto. The Oakland police today were informed of the long-distance telephone call Mrs. Johnson was believed to have made to Oakland, and a search was begun here.

Johnson was working at an oil station when the child was taken. He immediately telephoned the police and offered a reward for its recovery, or for the arrest of Mrs. Johnson. Johnson obtained a divorce last August in Fresno and was awarded the custody of the child.

Pardon Is Sought For Banker; His Wife Ill

SAN FRANCISCO, Jan. 12.—An effort to obtain the immediate pardon of William C. Grant, the Santa Rosa banker whose wife is in a serious condition at Merced hospital in Oakland, was begun today. John Davitt, president of the California Banking company, who was foreman of the jury which convicted Grant, offered to sign a petition for the pardon of the convicted man, which would mean his immediate release from San Quentin. Davitt said he could get the signatures of all of the members of the jury.

Grant was released this week from prison by a special order and taken to his wife's bedside after her physicians had declared that her glimpses of him was the only thing that would give her life. After the meeting, the doctors agreed that her immediate improvement had been noticed and it is now said that she will get well.

Boy Stealing Ride Suffers Broken Leg

SAN JOSE, Jan. 12.—Jumping from the rear end of an automobile truck on which he had been stealing a ride, 12-year-old Albert Cross of Alameda County, this city, landed directly in the path of a second automobile driven by S. A. Sanford of this city yesterday afternoon and was run over, sustaining a broken leg and cuts and bruises.

The accident, according to witnesses, was purely attributable to the lad's negligence in looking for oncoming machines before he jumped from the rear of the truck. Sanford picked the injured lad up and rushed him to the city hospital, where his broken leg was set and his other injuries treated. He is in the East Columbia hospital today, his condition said not to be serious.

Work Is Started On New Ferry Landing

BENICIA, Jan. 12.—Work was commenced yesterday on the Fifth street landing for the Benicia Ferry company, with twenty men and forty horses on the job. Mrs. E. O'Brien of Martinez is the contractor in charge. When this work is completed the landing will be moved to the foot of East street, which will enable the ferry boats to make an eight minute run between Benicia and Martinez. Fifth street is in a direct line with the state highway which will also be a short cut for motorists. It is planned to have this street paved and the landing completed by the forepart of March.

Illness Leads To Aged Man's Suicide

SAN JOSE, Jan. 12.—Crawford Brown, an aged negro who had lived in this city for a number of years, ended his life here late yesterday afternoon by firing a bullet into his brain. The suicide took place in his room in West Santa Clara street, other roomers attracted by the shot finding his dead body. Brown left no note to explain his deed but it is known that he had been ill for more than three years past. Coroner Amos Williams will conduct an inquest today.

Eucalyptus Grove Fire Razes House

BERKELEY, Jan. 12.—Fire which started in the eucalyptus grove back of the Greek theater today resulted in calling out a portion of the Berkeley fire department and destroyed a building before it was brought under control. The building was a shed containing tools, valued at \$200.

EGGS DECLINE AS OPENING SHOWS 3-CENT LOSSES

**Drop Likely To Continue and
Wholesale Outlook Dark,
Dealers Declare.**

Today's development in the continued steady decline in the price of eggs resulted in eggs being quoted at 11 cents in some of the large markets today as low as 33 cents a dozen. This was a drop of 3 cents from yesterday's lowest mark. They were quoted retail at an average of about 25 cents today.

Eggs fell three cents in wholesale price overnight, making a total drop of 11 cents in three days. Ranch eggs are quoted wholesale at 32 cents, while pulled eggs are quoted at 30 cents wholesale. Today's price is said to be the lowest for this date in twenty years.

It was stated today that the drop would probably continue. The outlook for the wholesaler on the egg market is characterized as decidedly dark at the present time, in view of the developments of the last few days.

FRESH TOMATOES IN JANUARY ARE NEW DISCOVERY

ALVARADO, Jan. 12.—Fresh tomatoes in January is the good fortune of many Alvarado householders as the result of the thrift of the women of Alvarado who have discovered that tomatoes may be kept for several months after the season ends by digging up the whole tomato vine and handling it in cool places.

The tomatoes continue to derive nourishment from the vine and do not wilt or dry, the women claim. Several women report that the tomatoes kept by them in the new way are in excellent condition at the present time.

Hayward Boys Held On Theft Charges

HAYWARD, Jan. 12.—With the arrest and arraignment of Louis Prentice and Henry Benz, two more Hayward boys alleged to be members of a "gang" credited with extensive operations in the district, Hayward officers believe they have practically cleared up the petty law-breakers of this community. Five members of the gang are now under arrest and confessions have been obtained from all, according to word received by local officers from officials at the county jail. Two suspected members of the "gang" have been released, owing to a lack of evidence. They are John Buckett and Joseph Bernard. The five now facing trial are John Enos, Manuel Simmons, William Allen, Louis Prentice and Henry Benz.

Man Loses Purse and Thousands in Paper

SAN JOSE, Jan. 12.—Joseph Carbone, of 101 North Market street, this city, is today full of anxiety. Yesterday he lost a purse on a downtown street, the wallet containing \$6510 in drafts and cash. The purse was lost either at or near the Milano hotel, it was stated. Two of the drafts, one for \$500 and the other for \$1000, were made out on the local First National bank, while a third draft for \$500 was made out on the local bank of Italy. There was \$110 in currency in the wallet.

Eight Arrested in Capital Dry Raids

SACRAMENTO, Jan. 12.—Eight persons were arrested and liquor and wine valued at more than \$600 confiscated here last night in raids by prohibition enforcement officers.

Jester on State's Motor License Desk Stirs Oakland Ire

Those applications for 199 exempt state motor vehicle licenses for city automobiles which came back to the Oakland Street Department today. This is the third trip.

In sending them back to the city of Oakland the sagas at Sacramento include for the third time their warning that applicants for exempt licenses "must certify that the vehicles are owned by the United States Government, representatives of foreign powers, city and county governments state departments and corporations taxed solely for state purposes."

The city of Oakland has duly certified each time that Oakland is a city government, but the Sacramento officials apparently didn't see it. Miss Blanche Steele, stenographer for the street department, today swore to it before a notary public. She then sent a copy of the city charter, some old municipal records, a copy of the police regulations and a tariff line concerning the "low visibility" of the Sacramento officials.

"Oakland is a city," asserts the street department officials. "This Sacramento business is either a joke or an insult. It is a very funny man at Sacramento is having a good time, but meanwhile we are not getting our exempt licenses for our automobiles."

Oakland is not a federal government and has no army or navy," adds Commissioner William J. Biceps. "But if this business doesn't quit right now, Oakland is going to declare war just the same. This thing is causing a joke. It's becoming an annoyance."

TRAFFIC POLICE ELECT OFFICERS

BAKERSFIELD, Jan. 12.—Harry E. Wilson, chief of Fresno county traffic officers, was re-elected president of the California Association of Highway Patrolmen, meeting in annual convention at Lebec.

Other officers elected were as follows: H. Meyers, Santa Ana, first vice-president; Lester H. Manning, Oakland, second vice-president; L. W. Hogan, Tulare, third vice-president; E. M. McCloskey, Modesto, secretary; Charles Fayre, treasurer, and J. D. LaPlante, San Francisco, sergeant-at-arms.

San Francisco was chosen the convention city for next year, when the state traffic officers will meet the first Tuesday in January. The semi-annual convention of this year will be held at Los Angeles the second Monday in June. The convention at Lebec closed this evening with a banquet.

Daniel J. O'Brien, Chief of Police of San Francisco, yesterday addressed traffic officers in an "Entertainment and Co-operation" among police officers.

Charles H. Stone, Chief of Police of Bakersfield and a finger-print expert, spoke on "Identification."

San Francisco was chosen the convention city for next year, when the state traffic officers will meet the first Tuesday in January. The semi-annual convention of this year will be held at Los Angeles the second Monday in June. The convention at Lebec closed this evening with a banquet.

Larger Patent Office Is Proposed by Bill

WASHINGTON, Jan. 12.—Enlargement of the United States Patent Office to place and general increase in salaries for paid examiners is provided in a bill which passed the house today. The legislation was urged insistently by business organizations, manufacturers and engineering societies throughout the country. The patent office is over a year behind in its work of search applications for patents on inventions and business enterprises are being handicapped by the delay in granting patent protection.

O. K., SAYS RADIO FROM DISABLED U. S. TROOP SHIP

**Transport Crook, With 1100
On Board, Due To Dock
in N. Y. Saturday.**

NEW YORK, Jan. 12.—"Steering south. Condition of vessel O. K." This was the reassuring message wireless to the army transport service office here early today from the transport Crook, carrying more than 1100 men, including 942 soldiers of the army of occupation, which sprung several leaks between her plates when 600 miles from New York on her way from Antwerp.

It was estimated that the Crook was out about 300 miles when the message was sent, proceeding at slow speed and that she would not dock here before Saturday.

The early morning message was relayed through the transport St. Michel, which is proceeding to the Crook's side after having been despatched, refueled and re-dispatched from here yesterday.

WASHINGTON, Jan. 12.—The war department received the Crook's despatch from the transport Crook at 6:30 this morning stating the vessel was making "favorable headway."

The gale struck the vessel late last night, but did not perceptibly slow up progress, the message said. At the time of the despatch the Crook was 355 miles east of New York.

Damages Asked for Refused Service

BERKELEY, Jan. 12.—Because they declare that they were refused service at the Sandwich Shop located at 2340 Bancroft way, Josephine Goodloe and Beulah Ingham, both colored residents of Oakland, today filed suit for damages against Gussey Meyer.

Each of the plaintiffs asks damages of \$250. The case was set for trial at 10 o'clock today. The plaintiffs, as filed by H. L. Richardson, colored attorney of Oakland, Mrs. Meyer is declared to have told the two women that she could not serve colored customers because colored students had complained against them.

Pioneer of Niles Is Dead At Sunol

NILES, Jan. 12.—Word was received here today of the death of Herman Woodcock, pioneer of this section, at his home in Sunol yesterday. Woodcock, who was 70 years of age at the time of his death, was one of the picturesque characters remaining from the early days when life in the hill region of southern Alameda county was still in the wild and woolly stage. Woodcock himself having gone through several drastic feuds.

He was well known in Niles, having lived here for a period of years before moving to Sunol.

Auto Driver Held On Wild Driving Charge

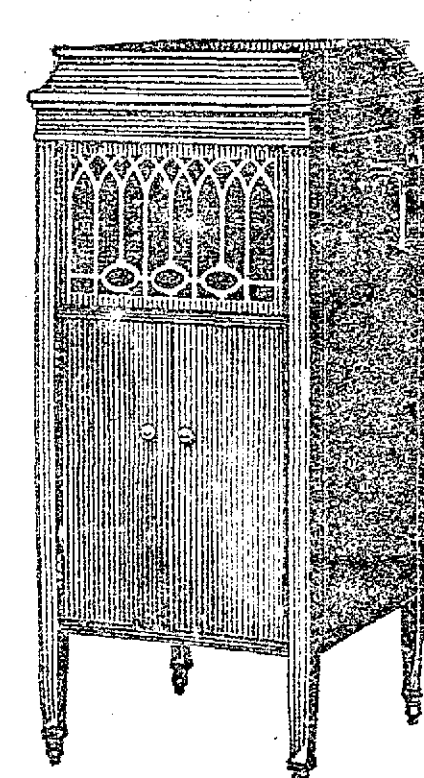

MARTINEZ, Jan. 12.—On complaint of City Attorney A. F. Bray, Deputy Sheriffs Brady and Browning yesterday arrested William H. Bagley of Oakland on a charge of reckless driving. Bagley was apprehended at the municipal wharf where he was awaiting arrival of a ferry. Bray charges that Bagley speeded across Main and Smith streets narrowly averting a crash with his car and another machine. Bagley pleaded not guilty before Justice of the Peace F. L. Glass, who fixed bail at \$25. Bagley communicated with friends by telephone and bail for his release was given.

Perch Case Goes To Jury Tomorrow Night

LOS ANGELES, Jan. 12.—Arthur C. Burch, on trial for the murder of John Belton Kennedy, may know his fate by Saturday.

By stipulation of both sides arguments will be concluded late Friday.

\$125 NEVER BOUGHT SO MUCH HAPPINESS

Music is a household necessity. Necessary because of the stimulating and elevating ideas and ideals that follow its advent in every home. It is to the child as the parent a solace, a comfort and a most restful influence—one that educates and elevates.

No source of music that we know is so satisfying, so easily and economically acquired as the Phonograph, and no Phonograph at or near its cost satisfies so completely as does this Model 207, at \$125. And it may be had so easily on this plan:

THURSDAY, JANUARY 12, 1922.

OMIT FLOWERS.

Sad hours are coming upon a small group of citizens. Soon they will be mourning for the fact that there are no more wells of bitterness and hate and distress and animosity to occupy to the bottom.

An equitable adjustment of international issues in the Pacific basin is obviously near. The jingoes who have been trying to stir up trouble between this country and Japan will be embarrassed.

Soon there will be complete reestablishment of amicable relations between this country and Mexico, and those who have urged invasion of Mexico and the seizure of Lower California—by purchase or otherwise—will be embarrassed.

Final settlement of the quarrel between Ireland and England seems assured. Those who have exploited the reservoir of hatred which this quarrel created and maintained in the United States will be out of a job.

England and France are about to show the world that they never had any real quarrel and that they will continue to stand together. The evil agents of dissension and international ill feeling will be balked again.

Peace is approaching other troubled quarters of the earth. Sane minds and temperate hearts are triumphing.

What will happen when these moral jackals that thrive upon misfortune and dissension, but ever hungering for more misfortune and trouble, face a country and a world of comparative tranquillity?

Whatever their fate, please omit flowers.

GO AHEAD, NOW!

A symposium of business opinions, gathered from all parts of the country, from the largest operators of industries and financial institutions of the East, to the more modest heads of business concerns in the Eastbay district, reflects a healthy optimism. There is a confident outlook upon the months ahead. There is a sound, almost unanimous, belief that 1922 will be the year of full recovery from the post war depression.

There are several reasons for this optimism. Not all of them spring from unsupported hope. Recent and present tendencies in business, industry and finance indicate a real, definite movement forward, that the period of healing and preparing is at an end.

The most noticeable progress in readjustment during 1921 was in the banking world. Banks are now on a sound basis. The problem of extended credits, aggravated by a great depreciation in the value of commodities which were the basis of credits to a large extent, has been solved in its worst stages. This was a serious matter for awhile and banks throughout the country, but to a far larger extent in other sections than in California, had to "carry" their customers for a longer period than originally contemplated. But they were able to do this, and while accounts in the aggregate amounting to many millions of dollars are still unsettled, the worst is passed and the period of uneasiness is over.

In passing this critical difficulty the Federal Reserve Board proved again its great value to the financial system of the nation. It demonstrated also that deflation of credit could be executed in an ordered, organized way and not by the older process of bankruptcy and business failures—by that economic chaos that marked earlier periods of depression.

Easier money is now available for business and industry. There will be fewer eight percent bond issues in the future and more loans bearing five and six percent interest. This will encourage corporation financing and permit the expansion of industrial plants and the execution of great public projects.

The refinancing of the railroads, which got a fair start last year, will be carried on on a much larger scale during 1922. This will mean improvement in transportation facilities and increased activity in many industries allied with or dependent upon railroad operation.

In Oakland there is every promise that the

building program completed will be larger this year than in any previous year in the history of the city. Within a few weeks there should be plenty of work for those who want it and a notable increase in the buying power of all classes of citizens.

Abundant causes for a confident outlook upon the future exist. The thing to do is to go ahead—now. The valley of depression has been crossed. He who starts ahead first will enjoy an advantage over him who continues to hold back and wait.

A NEW BASIS OF UNITY.

Fruits of the victory of reason and common sense on the part of the majority of the leaders of the Irish Free State are already being enjoyed by the people of Ireland. Political prisoners, including those sentenced by English courts to be punished with death for insurrection, are granted amnesty and are to be permitted to return in peace and without prejudice to their homes and take up again the duty of unimpugned citizenship. The English regulars and constabulary are being withdrawn from Ireland's soil. The agreement of December 6th is in process of good faith execution on the part of the British government.

There may be observed in this the opening of the period of a new kind of test for Ireland. The hereditary enemy, against which all the people of southern Ireland have been able to unite for several centuries, has disappeared. In the view of the most bitter "die-hard," this enemy has at least temporarily withdrawn. The time is at hand when a new basis of unity must be found. Instead of the unifying slogan of "down with English tyranny," Ireland must get together on the work of setting up a new government, a free government of Ireland, by and for the Irish.

At this distance the evidence of the first few days is not greatly encouraging. While the De Valera faction of the Dail Eireann, comprising half of the parliamentary body less only two, have agreed to cooperate with President Arthur Griffith in transacting the business of the present Dail and of the Irish government until the new system is prepared and installed, it has served notice that it will not cooperate in any government based upon the treaty of December 6. Thus outwardly it appears that the present governing body of Ireland starts to its serious and vital task of preparing a free and independent government split into two opposing camps of about equal strength.

But perhaps the situation is not so bad as it appears. Unquestionably the mass of the Irish people want the new scheme of self-government, qualified only by cooperation in the family of British commonwealths, given a fair trial. At least they want the system established if for nothing else than to provide a new and advanced point from which to strive for such further concessions as may be determined to be vital.

It is no small undertaking for a people to set up a new system of government, especially in a land where there has been no independent government, where the motive of popular interest in government has for many generations been hatred and a striving to break down the dominion of a foreign rule. It is therefore a severe test of character that is before Ireland today.

We believe both the people and the leaders are equal to meeting it in a splendid manner. But it is highly important that unity of action and obedience to majority decisions be the fortune of the Griffith cabinet. If there is a faction which persists in the endeavor to destroy the biggest thing that ever has come to the Irish nation the road will be difficult, if not impossible.

Imperialism may never completely pass, because it exists in spirit wherever there is the desire on the part of somebody to boss somebody else. But imperialism organized into governmental hierarchies is nearing its end.

ARTICLES X AND II.

Senator Hiram Johnson of California has issued a statement of qualified opposition to the Pacific treaty. He is not opposing it, but he is uneasy. He thinks Article II of the treaty is in Article X of the covenant. If it is, then California is in Siberia.

Under Article X the United States would have guaranteed the territorial arrangements made under the Japanese peace. It could have been called upon to send men to Poland to resist a Russian attack. It could have been called upon to keep the Italians out of Jugoslavia. It could have been asked for a quota scheme of the treaty of Versailles and about the mischief they are calculated to bring about.

Under that article the United States was involved in quarrels which may have no end and in which America has no interest. The Pacific treaty concerns issues in which the United States has the greatest stake. It is in greatest danger of war. The treaty is the greatest danger of war. The treaty is the greatest danger of war. The treaty is the greatest danger of war.

Mr. Johnson is alarmed because it is stipulated that if the Japanese homeland is attacked by an outside power the United States, France, and Great Britain will consult and take measures to meet the emergency. The Japanese homeland is recognized as an insular possession. The agreement does not include the Asiatic mainland. Troubles of Japan in Siberia or Manchuria or elsewhere are her own.

Any troubles Japan has with any outside power, any troubles, any troubles of the treaty, within the next ten years, threatening the home islands of Japan. The treaty will agree to defend her against with two men, a rowboat, and a shotgun. By which means transportation does Senator Johnson think the possible enemy of Japan will reach shooting distance of her home shores?

The homeland agreement, a futility so far as Japan is concerned, allows the United States to fortify Hawaii as if it were a part of the American coast and not to have a dispute about it. It is all to the good for America.

DAILY ALMANAC

Thursday, January 12.

Jack London was born in 1876. In 1888 on the same day old John Winthrop, the first colonial governor of Massachusetts, was born. John Hancock, born 1737, it was in 1861 that Lincoln, speaking, taking with that Florida speech, took her a great stock of peaches, Florida water, swamp lands and cigars. San Blas was fought in Mexico in 1848. The Duke of Alva died in 1583. Who was the Duke of Alva?

When gentlemen arise and talk
From luncheon chairs beside us,
We sit quite still and never balk
No matter how they chide us.
We listen to the worn-out squeal,
That used to be a peach.
About the fellow who did steal
The speaker's lovely speech.
We're quite as willing to applaud
As are the other folks.
At stories, tall and flat and broad,
At whiskered wizenhead jokes;
So let 'em rave and let 'em peep,
And let 'em all deride us;
I keep the right to go to sleep
When one seeks to divide us.

The attention of Sinclair Lewis and others who believe that the American small town is portrayed faithfully in "Main Street," we would like to call to the little Methodist church at Pinalo. There are thirty-one members of the congregation and a third of them are children. The church is far removed from the Municipal Woodyard of Oakland or any other center of unemployment. Yet when the story of the six hundred men of family who are out of work reached Pinalo, Rev. James H. Rogers dug down in his trousers for \$5 and wrote, "let me know if you need more." A few days later, the congregation heard the story from Rogers and mailed a check for \$25.50.

Now if the large churches right here at home could act in the same proportion, \$25 to each 33 persons, there would be no bread line at the Woodyard. Many of them are, of course, and many of their members are acting individually. Yet the little old church at the crossroads in Pinalo pointed the way. If this is Main Street, let us have more of them.

Because the devil finds work for idle hands there is justification in the practice of allowing him to take care of the unemployed.

The New Year is reckless in its breaking of tradition. Now we read of a bank robbery in Missouri in which, instead of a lone bandit, there were four. When they escaped they sped away, not in a high-powered car, but on horses. It must be the mud on the Missouri roads.

By all the laws of hygiene
And every diet food
A gift of candy ought to make
A fat girl good and mad.

Let It Be Recorded.
Dear Sir: A San Francisco item says that thieves stole \$1580 worth of auto tires from Otto Hellefett. We were just wondering how the Hellefett when he found out. We bet he was hot.—W. J.

Mention of the John and Winthrop here has reminded one Oakland seeker of romance that when he was a young man he and a companion decided to ship on a whaler and interviewed the skipper of the old bark. They were referred from captain to first mate and back again but were not to be discouraged. Finally the captain took them into a forbidding ro'castle and showed them the scars of a fire.

"The crew," he said, "tried to burn her up one day in the Far North. They had heard that there was gold to be picked up and wanted to make their way across the ice to shore. I had to get a rifle, drive them all below and make them put out the fire or burn."

Then the skipper showed them his cabin, lined with rifles and revolvers, a regular arsenal, told them stories of shipping, heavy seas and of long months frozen in the ice fields. The Oakland lad changed his mind. Later he heard that the John and Winthrop, on that trip, stayed out eighteen months, as the skipper would not return until all barrels were full of oil.

Those who are inclined to worry over the Pacific problems and even over their own taxes a few centuries hence should read the latest scientific observations concerning this coast. In two or three million years there will not be any such Pacific as we now have, say the scientists who years ago noted that the level of this ocean drops slightly each year. Dr. T. H. Fraser, a New York scientist, predicts that a million years from now, if the world still stands, the Pacific will have subsided to such an extent that much of the land now covered by it will have been redeemed. Then there will be created many American cities miles west of Oakland and other urban communities now designated as coast cities.

Dr. Fraser and other men of science believe that the subsidence of the water is due to the gradual deepening of the ocean bed rather than to any actual loss of water.

An expedition under the auspices of the United States and Japanese governments is now studying coral formations in the South Seas, hoping to find some relation between them and the lowering of the water level.

This expedition is working on the theory that the material used in the construction of these masses of coral was taken from the sea floor, thus deepening the ocean bed. In the ice age, we are reminded, so much water was used in the formation of the vast quantities of ice that the level of the ocean dropped about 40 fathoms.

Stuck around for a million years and we will all go down together.—AD. SCHUSTER.

NOTES and COMMENT

More and more are we shown that even our persons are not sacred. The Wisconsin Supreme court has established that dentists may pull a patient's teeth without his or her consent, and even against protest. The tribunal reversed a lower court in which a patient had secured a verdict of \$3500 damages from a dentist for removing six teeth "without her consent, or even knowledge." The graduate's favorite expression, "Whether are we drifting?" may well be asked.

If the Columbia University psychologists succeed in the effort to ascertain what causes men to sit up all night with cards and chips, manipulating them in accordance with the rules of a pastime called poker, they will do what some millions of wives have utterly failed to do—and which failure they are largely accredited with confessing in more or less positive terms.

It is announced that there has been a discovery that will cover the shiniest bald head with hair. And the remedy is quite simple. All that you have to do, it seems, is to eat the kind of food that grows hair. There are no cabalistic signs in connection with this discovery to show that a patent has been taken out, or even applied for.

The New York Herald hails the return of the five-cent loaf: "After an absence of five years the five-cent loaf of bread has returned to the family ladder. The five-cent loaf, however, does not mean a pound loaf. It did not mean a pound loaf five years ago, or even before. But the present price with certain progressive producers is again normal."

JUST FOLKS

By EDGAR A. GUEST

So you're scraped you shin and you're bumped your knee. And you're just as sore as a boy can be. And they roughed you there when you tripped and fell; But all of the hurts will soon get well.

So don't fret over bumps you've had. For they are all in the game, my lad. They were stronger than you? Well, I guess that's true. For your little body is black and blue.

And they tackled hard when you had the ball. And your shoulder hurts where you chanced to fall. And some of them cheated—well, that's too bad. But that is all in the game, my lad.

And you lost the game, but your dad won't care. If only you tell him your play was fair. Why, the little hurts will soon be gone. But the scar of the cheat says on and on.

So take this truth from your dotting dad— It's better to lose than to cheat, my lad. Some day when you're older grown, you'll find You must stand to hurts of a sorer kind;

Men will batter and bruise and cheat you, too. And they'll stoop to things that you mustn't do. But you must still smile when your heart is sad. For that's all a part of life's game, my lad.

About YOUR HEALTH

Why You Shouldn't Neglect A Cold; Two Big Reasons
By ROYAL S. COPELAND, M. D.
Consulting Physician of Health
New York City.

Unfortunately for the human family, certain diseases are considered jokes. They are not looked upon as of the slightest importance. Among this class is found the common cold. You only laugh when you hear of a friend staying from business because he has a cold.

If we could measure the sum total of lost efficiency due to colds, I am sure we would have a very potent argument for finding some sure means of preventing them.

When one pupil in a school, one woman in a factory, or one girl in an office or shop comes down with a cold which is nursed at business instead of at home, it is only a matter of a few days when any susceptible person in the establishment will be similarly affected.

It is safe to assume that efficiency is lessened at least 50 per cent during the acute stages of a cold. The employer of several persons could well afford to pay the wages of an employee and insist on her staying home during the illness. Such a course would pay in the long run, because it would prevent an "epidemic" of colds in his establishment.

You should not neglect a cold. You owe it to yourself to go home and to bed in order that the trouble may not extend beyond the nose. All conditions of the influenza type yield quickly to proper methods of treatment. The first of these is the warmth and quiet of the bed. It may seem silly to go to bed for so simple an ailment, but it is worth while, because it will cut short the attack.

You should make more or less a prisoner of yourself. You ought to do this for the sake of your own immediate family. If you keep away from them you guard your loved ones from disease. Your eating utensils should be boiled after you use them, and your toilet articles kept away from others.

If you stay away from business, don't go to a motion picture show to all in the time, and, incidentally, to infect a lot of your good neighbors. Home and bed should be your rule. I wish I could impose this rule upon every one who has a cold.

There can be no doubt that the happiness and the health of this world would be materially increased if this rule were "the law of the land."

The Golden Rule is indicated here if anywhere. With pneumonia or typhoid fever you are forced to go to bed, because you simply cannot stand on your feet. But a cold is a trouble with which you can drag yourself about, and with which, unfortunately, you usually do go about to your own detriment and to the danger of your associates. You ride on street cars, fill the air with the spray from your coughing and sneezing, and thus you infect dozens of persons with whom you come in contact. The Golden Rule demands another course of action.

You ride on street cars, filling the air to the danger of your associates.

THE SUBMARINE A PIRATE.
The thing that happened to German submarines during the war and the things that German submarines did during the war are the strongest arguments that can be offered for the restriction of submarine forces. It is now stated that of the 375 submarines which the Germans employed during that time, 208 were sunk with their crews. While it is shown that this sub-surface force was able to do practically no damage to combatant ships, yet it did succeed in sinking 12,000,000 tons of merchant shipping and killing some 20,000 non-combatants.

This record alone proves conclusively that submarines are essentially piratical. Their prey is the unarmed or inadequately armed non-fighting ship. Their human victims are the non-fighters. In that sense the submarine is neither offensive nor defensive. It is not a fighting machine. It is a pirate, pure and simple. Civilization has long since put its stamp of disapproval on pirates.—Buffalo Express.

Student and Graduate Admit Intoxication Charge; Two More Counts Based Upon Outbreak At Auditorium

George Fortune, 22, of Stockton, University of California student, and David Pettit, 21, former student, were before Judge Edward J. Tyrrell in police court this morning, following a fight between policemen and students at the auditorium last night, in which Fortune received lacerations of the scalp.

Fortune was charged with being intoxicated, using vulgar language and battery. He pleaded guilty to the first and was fined \$5; not guilty to the second charge and trial was set for January 14. The battery charge was continued until tomorrow morning. Fortune was released on \$35 bail.

Pettit pleaded guilty to a charge of being intoxicated and was fined \$5.

ATTACK ADMITTED.
 The two were arrested last night at the civic auditorium when, it is alleged, Fortune attacked a police officer. Pettit in court this morning told Police Judge Tyrrell that reports of the affair had been "grossly exaggerated," but admitted that Fortune struck the officer.

"If that is the case," said the court, "I fail to see how the matter was exaggerated."

Charges by spectators that Sergeant Thomas O'Neill wielded his club unjustly in striking Fortune were denied today by Police Captain J. Frank Lynch, in charge of the officers at the auditorium. Lynch said the use of night sticks was justified, claiming that the students were rough and boisterous and started to mob the police.

David P. Barrow, president of the university, today instructed Executive Secretary Morse Cartwright to make a thorough investigation of the affair. An effort will be made to secure the names of all the students who are said to have participated in the fight, with a view of taking action at the university.

OUTSTAYED AFTER BATTLE.
 The trouble, it is said, started among a crowd of students at the boxing show shortly after the program opened. Police declare that the students were hurling their hats in the air, using vulgar language and annoying women. Captain Lynch called Sergeant O'Neill and Patrolman James Chamberlain.

When they started ejecting the students from the auditorium a riot ensued. Drawing their night sticks, the officers forced the students outside the building, where they talked to them. Finally they

Snow in Oakland? Oh, Yes, But It Is Imported

Children at the Harrison School engaged in the task of building their first snowman. The snow stole a ride to Oakland on top of a freight train. The greatest battle in the history of the school followed its arrival at Fourth and Harrison streets

Snow From Mountains Gives Material for Winter Sport

Several hundred children at the Harrison school at Fourth and Harrison streets engaged in the first snowball fight of their lives today when a Western Pacific freight train pulled into Oakland laden with snow fresh from the Feather River canyon. The train went onto the side track near the school and fifteen minutes later a battle was being waged, the like of which was never known on Harrison street.

The children, all of elementary grade age, were soon peering out from behind their desks and benches in command. Breastworks were quickly thrown up and snow-balls flew in all directions. Snowmen sprang up here and there. Many of the children being amateurs in the art of building snow men, it was necessary to summon aid from some of the teachers before all of

the little army of snow men would stand alone.

The snow was carried to Oakland on top of the freight cars, where it fell during the train's passage through the Feather River country. It was eighteen inches deep, and well packed. Boys climbed onto the cars and shoveled it off. In one instance a little boy, eager to see what the snow was like, ventured too near the avalanche and was almost buried. He was rescued and rushed to the school to be thawed out.

Passersby were not hampered from the snow projectiles. Hats came off from well directed shots that sent the chance enemy hurrying to place distance between himself and the vicinity of the school.

Immediately following the snow battle, when school was resumed, the classes took up the study of

Discharged Policeman Takes Steps to Resist Action of Commissioner in Ousting Him From Place On Force

Patrolman Michael Connolly this morning filed an appeal before the Civil Service Board against Commissioner Frank Colbourn's order yesterday which dismissed him from the police force.

This is Connolly's third appeal within a few weeks. He was suspended three days last December for failing to arrest an autoist, found violating traffic laws, and appealed. He was then suspended indefinitely for alleged misconduct and appealed. His discharge brings the third appeal. The matter comes up at the civil service meeting Tuesday.

"Without prejudice against Connolly," says Colbourn, "I believe that the police administration has been

DECEMBER RAIN NEARLY DOUBLES NORMAL FALL

BERKELEY, Jan. 12.—The rainfall during December was close to double the normal amount, according to the meteorological synopsis issued today by the University of California. The normal precipitation for that month is 4.43 inches, while during last December 8.48 inches of rain fell. From December 18 to 30 there was no day without rain.

This period was marked by a movement of long successions of barometric depressions into the Pacific coast, thus changing the weather type from that of the high pressure areas dominant during the first two-thirds of the month.

Seasonal rainfall excess was 1.8, the synopsis showed, at the end of December. On the 26th of the month, between 5:15 and 5:30 p. m., three flashes of lightning with thunder were observed.

MY FAVORITE STORIES

IRVIN S. COBB

Ladies First Always.

The man who told me this one, years ago as we stood together on the rim of the Grand Canyon, swore it was true. I believed him. For he had the reputation all over the Southwest of never telling an unnecessary lie.

He said a typical "mover," shiftless, restless and sockless, was spending a short time at an Arizona cow camp preparatory to moving on into the desert on a so-called prospective tour. His chief earthly possessions consisted of a pair of slab-sided mules, a rickety prairie schooner, a wife, four children and six hound dogs.

The wife, who was a tired out, faded creature, complained to some of the ranch hands of the hardness of her lot, and the foreman took it upon himself to remonstrate with the husband for his indifference to his wife's welfare.

"The old woman ain't got no kick comin'!" said the husband when he had heard the foreman's remarks. "She ain't got no kick at all. She's plum' pampered—only she don't appreciate it none. Why, when we is fixin' to camp of a night many a time I've driv' the team half a mile out of the way so's wood and water would be handy for the old woman to fetch!"

Oh, it's always crowded in them places.

Yeah, but it was more crowded last night than I ever seen it.

Well, if you think it was crowded there, you should've seen it over at the Merry Gardens. Oh, boy!

Yes, how did you like it?

I thought it was a mess. Look good on anybody but Susie. But she can't wear erise. Some kind friend ought to tell her.

Why don't you tell her?

Who, me?

Sure, why not?

(Both give handsome stranger a nasty look and continue where they left off.)

You'd think she'd get it even around the bottom, anyway. Wonder what the idea is of having it all hiked up in front?

Oh, I guess she don't know no better. Etc., etc.

(Handsome stranger finally gets his package, but he has missed his train. Fortunately there is another one in three-quarters of an hour. It takes an hour and ten minutes, but otherwise it's a nice train.)

CUBS MUST PAY RECORD PRICE IF THEY WANT CLAUDE COOPER

DEL HOWARD RETURNS FROM SOUTH AND DENIES THAT HE ANNOUNCED RELEASE OF HONUS MITZE

CUBS MUST PAY SAME FOR COOPER AS THEY DID L. A. FOR STATZ

Howard Denies That Anyone in South Had Chat With Him in Regard to Mitze's Release

By EDDIE MURPHY.

George Elmer (Del) Howard, vice-president of the Oakland baseball club, is back in town after a three weeks' visit in the south. Del was a mighty tired man for he and his wife motored all the way up, and of course he was not in very much of a talking mood. But it was possible to drag a little information out of the big chief in regard to the story about Honus Mitze being handed his unconditional release, and the possibility of Claude Cooper or some other Oak being sold to the Chicago Cubs. Honus Mitze has not been released, and Del did not have a long talk with Jack Doyle, the Chicago Cub scout, about selling Cooper or any other Oak. Howard was pretty much on the warpath to return home and learn the stories that had been wired out from Los Angeles in reference to Honus Mitze and Claude Cooper. Del says that is a unique way Los Angeles has for grabbing off a little advertising.

Howard said that he did not spend more than a few hours in Los Angeles out of the three weeks that he was away from here, but that he was down on his hands and feet in the close to Los Angeles. He admitted that he was interviewed by several newspaper men while in the south, but that he was not in any way connected with the story who has been quoted with a story on the unconditional release of Honus Mitze. He said that he never saw the man who turned the yarn loose, so maybe Del is right in saying that it is one of the worst of the Los Angeles folks have of keeping Los Angeles very much before the sporting world. So Howard is not a free agent, but he is the property of the Oaks. He admitted that he remarked he had seen Honus Mitze in the way of the Los Angeles. If he thought that the little catcher could land the job as manager of the Portland team.

Howard Will Meet With Scout Jack Doyle Today.

Now for a little bit of information on Claude Cooper. Jack Doyle, the Chicago Cub scout, has been in town and told him he wanted to talk some real business about ball players, but at the time Del was busy and suggested that Doyle meet him here and talk business. Del does not know yet what player Doyle is after, but he has a good hunch it is Claude Cooper. Like many others, Del thinks that Cooper has a good chance of making good in the majors as has Arnold Stutz, the young pitcher secured from the Los Angeles club by the Oaks.

Doyle is to have a meeting with Del Howard today, and if he ever expects to get Claude Cooper he must not expect to get him any cheaper than Stutz went for. Howard does not want to hint that he is a scout, but if he has a chance to go to the majors, but you can bet he is going to make the Chicago Cub scouts go through with the deal. Doyle is to have a meeting with Del Howard today, and if he ever expects to get Claude Cooper he must not expect to get him any cheaper than Stutz went for. Howard does not want to hint that he is a scout, but if he has a chance to go to the majors, but you can bet he is going to make the Chicago Cub scouts go through with the deal.

Player Trades Will Be Made at P. C. L. Meeting.

Next Monday is the day set for the second gathering of the Pacific Coast League moguls since the close of the 1921 season. They met at a hotel in San Francisco, but failed to complete their business. What is going to happen next Monday is a dark secret, but fans can expect to hear plenty of loud noise come from the meeting quarters. It is a chance that the question on the draft is going to be discussed good and plenty, and some rows are likely to take place before all the club owners will be satisfied on the question. Cal Ewing, president of the Oaks, favors the draft under certain conditions, while the owners of the club owners are against it altogether. Cal's idea is a good one if the majors can be made a dark secret, but it's best to wait and see what William McCarthy and the other big guns of his organization will decide to do.

Duffy Lewis, manager of the Salt Lake Bees, will attend the meeting. And if he can put through a couple of deals, which he has planned, the fans of the Pacific Coast League are going to be surprised to hear that the league when a few of the club owners back there made some big player deals in the last few weeks. Duffy says that he intends to get rid of several men who were with the Bees last season, and that he intends to do it by making trades at the meeting. Just what men he will try to pawn on the other side is a question, but he says fans will really be surprised if his plans work out. Several other Coast League managers are expected to be present, and it is likely to meet with much success. Last year it was rumored that Walter Leverenz, southern pitcher, was to get away from the Bees, and maybe he is one of the men Duffy intends to dispose of.

Maler Announces He Has Secured Bodie for Vernon.

That "Ping" Bodie will be seen in a Vernon uniform next season was practically assured to the southern fans when Eddie Maler, owner of the Vernon Tigers, returned from the East a few days ago. Maler gave out the story that he had secured "Ping" Bodie and three other players from the New York Yankees as an option for Catcher Al DeVormer. Secretary Lorenz of the Tigers also said that the players were to be paid for DeVormer, who was delivered to the Yankees a year ago. Maler said that the property of the Yankees was reclaimed by the latter club, but has been turned back again to Bodie. Nelson (Chicken) Hawke and Pitcher Jess Doyle, who was secured by the New York Yankees from the Joplin club in the Western League. He is 20 years of age and a right hander, more than six feet tall. Maler spent nearly two months in the East, and besides putting through some good player deals, he arranged with "Steamboat" Flanagan, old time major league pitcher, to act as an eastern scout for his club. Flanagan will scout youngsters as well as give the up and down to the player that major league clubs might want to send the Tigers. The Portland club is also represented in the deal by a scout, the person is Thomas Turner, who formerly acted in a like capacity for the Philadelphia Nationals.

OAKS MIGHT SEEK THEM. The New York Yankees had three prospects from one club—Portland—that seem good enough for any Class A or A club to grab. They are pitcher Bodie and McDougall and shortstop Black.

San Francisco Gets Shortstop From the Giants; Price \$5000

According to a telegram received from "Dot" Miller, manager of the Seals, LeFevre, a shortstop belonging to the San Francisco Giants, will be sent to the San Francisco club in exchange for \$5000. This is one of the players involved in the O'Connell deal. Miller says LeFevre is a fast and good fielder. He is not much of a hitter. The new Seal is a college boy. San Francisco will get three more players from the Giants at \$5000 each, which takes \$20,000 off the alleged purchase price of \$75,000, the sum the Seals are said to have received for O'Connell.

JURY CHOSEN
FOR D'AGOSTINI
MURDER TRIAL

Warren Opens Talk; Mrs. Postel, Slain Man's Widow, May Be First Witness.

The selection of the jury who will try Mrs. Jesuita D'Agostini for the murder of Arnold Postel in Alameda was completed today and Deputy District Attorney Earl Warren began his opening statement to the jury.

The first witnesses for the prosecution are expected to be placed on the stand in Superior Judge George Samuels' court this afternoon.

Mrs. Postel probably will be the first witness called by District Attorney Warren. She will testify regarding her husband's character and his fidelity to her. Through her testimony Decoto will attempt to refute the contention of the defense that Postel caused Mrs. D'Agostini to shoot him by having insulted her.

Other witnesses who will be called by the prosecution to testify as to Postel's character will include Wallace Sargent, clerk in Postel's furniture store in Alameda, and W. E. Calcutt, proprietor of a hardware store next door. Lieutenant George Daly of the Alameda police department, will tell of the finding of Postel's body and the arrest of Mrs. D'Agostini.

When the turn of the defense comes testimony will be introduced, Attorney Spagnoli said this morning, to show that on the day of the shooting, August 31 last, Mrs. D'Agostini had just received a telegram informing her of her father's death in Mexico, and that she had appeared in several Alameda stores in a hysterical condition.

Among the prospective jurors excused from service in the case this morning was Hermann Heim, of 1445 Fifteenth avenue, who admitted to Attorney Spagnoli that he had been a friend of Postel's for fifteen years. Sheldon L. Kellogg, Jr., was excused after he had explained to Judge Samuels that a severe cold had temporarily affected his hearing.

At least four alienists will be called to testify that Mrs. D'Agostini was in a state of emotional insanity at the time she shot Postel. Two of these will be Dr. E. V. Lonicio of San Francisco, and Dr. William Tappan Lum of Alameda. The names of the two others have not yet been announced.

Advice Given to Beginners
AYNES AYRES, Paramount star, who tells writers of scenarios to make situations develop naturally.SCENARIO-STORY
MUST RING TRUE,
DECLARES STARAgnes Ayres Warns Beginners
Not to Lose Sight of
Naturalness.By AGNES AYRES,
Paramount Star.

The mistake, I believe, that many beginners in scenario writing make is that they strive too hard for an effect and lose sight of the fundamental necessity—naturalness.

It is true that in fiction or the drama we are permitted a certain latitude, a poetic license, so to speak, but this should never become so apparent that the structure shows through the material, like the lining of a dress, the outer texture of which is so sheer that it cannot conceal the framework, so to speak. The critics allude to these faults frequently as "convenient" situations, and poke fun at the unconscionable stretching of the "long arm of coincidence."

Try to make your situations develop naturally—that would be my way of doing it, if I should by any chance ever try to write a picture play.

Have your characters act like human beings and do things as they would do in real life. Don't make a character do a thing that would be foreign to his nature. Such things don't happen in real life and have no right to happen on the screen.

Don't try to write about things you know nothing about. There is likely to be far more drama in an incident that happens in your own home town than in some plot evolved in your imagination concerning people in a far-off clime.

I believe this is all good advice—and I'm looking at it too from the actor's point of view. Nothing is harder for the player than to try to interpret a role that doesn't ring true. As for the actor, the public will be convinced by that kind of a characterization.

Will Forgery Denied
By Widow of Craig

Denial that the signature on the will which bequeathed her the bulk of the late Joseph Craig's estate was a forged one, was made by his widow, Mrs. Chlo Craig, today, in an answer filed in the Superior Court following a contest started by her step-son, John S. Craig, two weeks ago.

The widow, who was Craig's second wife, and who was named in his will as principal beneficiary and executrix, also denies that she exerted undue influence over him when he made his will. The Craig estate is estimated at approximately \$100,000.

Aged Sick Woman
Is Burned to Death

POMONA, Jan. 12.—Stricken by sudden illness, Mrs. Susan H. Strong, aged resident of this city, fell across a burning gas heater today, following a contest started by her step-son, John S. Craig, two weeks ago.

The widow, who was Craig's second wife, and who was named in his will as principal beneficiary and executrix, also denies that she exerted undue influence over him when he made his will. The Craig estate is estimated at approximately \$100,000.

Chaplin Blunders
At German Party;
Bowsto Wrong Lady,
Toasts Hinder Feast

(This is the thirty-fifth installment of Charlie Chaplin's own story of his European tour. It continues the record of his experiences in Berlin.)

I am invited to a formal dinner party for the next evening at the home of Herr Werthauer, one of the most prominent lawyers in all Europe and a chief of the Kaiser's staff during the war. The occasion was to celebrate the announcement of Werthauer's engagement to his third wife.

His is a wonderful home in the finest section of Berlin. At the party there are a number of his personal friends, Pola Negri, Al Kaufman, Mrs. Kaufman, Robinson and myself.

There is a Russian band playing native music all through the dinner and jazz music is also being dispensed by two orchestras made up of American doughboys who have been discharged, but have stayed on in Germany.

For no reason at all, I think of the story of Basquini. This seems the sort of house for elaborate murders. Perhaps it is the Russian music that is having this effect on me. There is a huge marble staircase whose cold austerity suggests all sorts of things designed to send chills up the spine. The servants are aggressive and the meal such a ceremony that I feel that I am in a palace.

The Russian folk songs that are being dreamily whined from the strings of their peculiar instruments have a very weird effect and I find food and dinner the least interesting things here.

There is a touch of mystery, of the exotic, something so foreign though intangible, that I find myself searching everything and everybody, trying to delve deeper into this atmosphere.

We are all introduced, but there are too many people for me to try to remember names. There are herts, frauleins and fraus galore and I find it hard to keep even their sex distinctions correct. Some one is making a loud formal speech in German and everybody is watching him attentively.

The host arises and offers a toast to his bride-to-be. Every one rises and drinks to their happiness. The party is very formal and I can make nothing from the talk going on all about me. The host is talking and then all get up again with their glasses. Why, I don't know, but I get up with them.

At this there is general laughter, and I wonder what calamity has befallen me. I wonder if my clothes are all right.

The host understands. The host is about to toast me. He does it in very bad English, though his gestures and tone made it most graceful. He is inclined to be somewhat pedantic and whenever he cannot think of the proper English word he uses its German equivalent.

As the various courses come, the toasts are many. I am always about two bites late in getting to my feet with my glass. After I have been toasted about four times, Mrs. Kaufman leans over and whispers, "You should toast back again to the host and say something nice about his bride-to-be."

I am almost gagged with the stage fright that grips me. It is the custom to toast back to the host and there I have been gulping down all kinds of toasts without a word. And he has been sitting there waiting for me.

I rise and hesitate. "Mr.—" I feel a kick on the shins and I hear Mrs. Kaufman whisper hoarsely: "Herr."

I think she means the bride-to-be. "Mrs.—" No, she isn't that yet. Heavens, this is terrible.

My best respects to your future wife." As I speak I look at a young girl at the head of the table who I thought was the lucky woman I

Charlie Chaplin's Shoes
By Jack Burroughs

Though Cinderella's slippers hold high place among the tales of old. Their once compelling fascination is now a dimming scintillation. For keener and wiser eyes are wont to see and criticize. An honest working girl, descended to where, by royalty beheaded. She shuns the honored role of toil. To seek a princely mate, whose spell a kingdom is.

Nor can one see In the winged feet of Mercury More than a partial symbolism. Killed by the cold emphyseum Of later days. The brand tubus is on Time's furrowed forehead, too. That vague illusion's fled, for he was floored by Reality. His sandals in the mudbox lie. No longer will he flap or fly. Away, away with signs archaic—Long life to symbols algebraic!

Two empty boots lie side by side—The same that spanned, at every stride. Some seven leagues, as leagues were measured In days, whose annals now are treasured. As fairy falsehoods, near them lie A pair less nimble and less sure—That Wonder Clogs for all of that, When worn by the Amazing Cat.

And yet, of all the shoes and boots That cause to tremble to its roots The Tree of Truth, there is not one Fitted to shuffle, scuff or run. Beside that most symbolic pair, That Charlie Chaplin's wont to wear, Could they but speak, their tongues would "chab."

At every stupid formula Of life's conventionalities, And mawkish, maudlin wammies, The grasping greed of mercenaries, The pompous strut of dignitaries, The social climb, the killing pace, The lust for power, the pride of place, Humanity's inhuman scuffle—Are satirized in Charlie's shuffle.

Though Cinderella, crystal shod, May tread the unceasing sod; Though Mercury's wing'd shoes may lift, That and upon their plumes swift; Though Father Time's unutilized sandals May skim through strife and social sundials, I think, if I were wise enough To see the truth in "slap-stick stuff," And were I worthy, I should choose To thrust my feet in Chaplin's shoes.
